...moves merchandise

MILLIONS of people work every day in thousands of factories and offices to make the necessities of life. Important as it is, that's only part of the job! To make the fruits of their labor a huge success manufactured products, medicine, food products, hard and soft goods must be moved from factory to distributor from distributor to retailer, and the big mover in every case is ADVERTISING. It helps find employes for the manufacturers, it moves merchandise down the line, and finally, it is ADVERTISING that makes the market and finds customers for every manufactured product. The big mover of merchandise is ADVERTISING.
