**There's A Difference!**

Here's a rugged new breed of silo unloader with a big difference from other machines — a difference that means better performance.

The DA 1230 has double augers, but more important, they're differential augers. The rear auger is larger than the front auger and the two augers turn at different speeds. The result is up to 30% more wall pressure for smoother performance in all types of silage, soft or frozen. Silage flows into the impeller in an even stream — no slugs or pads of silage that can clog other machines and rob capacity. The differential augers break up compressed silage to give you smoother operation and greater capacity. You get Non-Stop Feeding with the new DA 1230 unloader.

**DIFFERENT SIZED AUGERS**

**FOR SMOOTHER OPERATION GREATER CAPACITY**

**Help Us Serve You**

Don't assume we know about your farm organization's meeting. To get your meeting on our Farm Calendar, it's safer to assume we don't know.

Remind us by calling 394-3047 or 626-2191 or by writing to Lancaster Farming, 22 E. Main St., Lititz, Pa. 17543. You'll be helping us to serve you better.

P.S. — If you're not sure you told us already, we don't mind hearing from you again.

**Custom-built to work better, last longer**

**FARM LOADERS FOR INTERNATIONAL® TRACTORS**

- Custom-Built to fit better and look better. No bending, reshaping, or slotting of holes.
- Custom-Built to assure longer loader and tractor life
- Custom-Built to work better. Visibility is better. Payloads are larger. Lifting and dumping is faster.
