Wednesday, January 24
BROILER-FRYER MARKET
 Ready to cook movement often light and disappointing for current needs However, advanced interest fairly good. Slaughter schedules up slightly for increased weekend needs Less than trucklot prices held

unchanged on both plant and US Grade A Trade advise indicated occasional offering forced for quick sale Live supplies adequate though weights continue lighter than desired in many quarters.

Negotiated trucklot prices on Plant Grade 32-32½. Pool trucklot prices on US Grade A 33½-36½, mostly 33½. Plant Grade 32½-34½, mostly 32½

Tuesday, January 23
NATIONAL EGG MARKET AT A GLANCE
 Prices are lower in most parts of the country. Supplies are ample and tending to buildup above current requirements with heaviest increases occurring in the middle and north atlantic sections Demand in major metropolitan centers is no better than fair and some backups are developing at retail levels of distribution. Diversions into breaking channels is picking up slowly. Off farm movement of older aged fowl is heavy in the southeast

NORTH ATLANTIC: Prices declined in New England yesterday and trended lower today in other areas. Demand light at all levels. Jumbos and smalls spotty but sufficient overall. Medium ample, extra large and large frequently burdensome as floor stocks buildup due to declining retail orders. Producers and packers in all sections are free sellers in an effort to reduce inventories immediately. Undertone remains very nervous.

NEW YORK EGG MARKET - WHOLESALE SELLING PRICES
 Minimum 25 Cases - Cents Per Dozen - In New Cases
 Minimum 10 percent AA 75 percent A

 Groundhog Day Feb 2 (If clear, don't cheer) . Average length of days for week, 9 hours, 57 minutes U.S. income tax becomes law Feb 3, 1913 19 days of fog in Sacramento, Calif 1958 . No one in this world needs a mink coat except a mink
Old Farmer's Riddle: What did the dromedary say? (Answer below.)

Ask the Old Farmer: I have an old Kentucky-style deer rifle How much powder should I use in charging it? F C , Detroit

Experts in gunnery might well tell you something different, but the old rule of thumb was this Lay the bullet on a flat surface, such as a board Pour powder on the bullet until it pyramids in such a way as to bury the bullet from sight, but no more That was generally conceded to be the proper charge Of course what the old timers did after that was to sweep up the powder carefully and measure it, making or marking a charger for that quantity so they would not have to go through the same process again

Home Hint: When using a meat grinder for crumbling dry bread, a paper bag over the end of the grinder will prevent crumbs from scattering . Cute poison ivy rash by washing exposed area with alcohol **Riddle answer:** I have a hunch

OLD FARMER'S WEATHER FORECASTS

New England: Begins with rain (6-8" snow in mountains), then clear and cold by midweek, some flurries latter part, rain changing to snow by weekend
Greater New York-New Jersey: Rain, heavy to start, then mixed with snow by midweek, unseasonably warm with heavy rain end of week, changing to 2-4" snow
Middle Atlantic Coastal: Rain at first, then partly cloudy and colder by midweek; week ends with moderately heavy rain, unseasonably warm
Southeast Coastal-Piedmont: Rain until midweek, then clear and very cold; rain latter part and much warmer
Florida: Cloudy and cool to start, then rain by midweek, scattered showers latter part, then heavy rain for weekend
Upstate and Western N.Y.-Toronto & Montreal: Light snow most of week, rain latter part, then very cold for weekend.
Greater Ohio Valley: Light snow and seasonably cold, then rain and warm latter part, rain mixed with snow for weekend
Deep South: Rain north and central at first, then cold and partial clearing, rain and turning very cold end of week
Chicago and Southern Great Lakes: Light snow to start, then turning much colder, week ends rainy and mild
Northern Great Plains-Great Lakes: Snow, 4-6" in east, then colder; light snow latter part, clear and cold for weekend
Central Great Plains: Very cold with light snow most of week, clear and warm latter part, then rain and colder
Texas-Oklahoma: Clear and cold to start, then light rain on Gulf coast, clear and warm end of week, rain for weekend
Rocky Mountain Region: Most of week clear and mild; rain and snow latter part, then clearing
Southwest Desert: Week generally clear and pleasant; scattered showers end of week, then clear and warm.
Pacific Northwest: Rain and snow mixed to start, then 2-4" snow in north at midweek, rain latter part, then warmer.
California: Increasing cloudiness and rain throughout week (heavy by midweek); clearing for weekend

Lots of Asparagus
 About 175,000 tons of asparagus are produced annually in the United States, with almost 60,000 tons going to the fresh market and more than 115,000 tons sold for processing.

HERE'S DAIRY NUTRITION AT ITS BEST!

Red Rose DAIRY BOOSTER PELLETS
 with Methionine-Analog

DOES YOUR HERD NEED SUPPLEMENTAL METHIONINE?

Most high producing cows need more methionine than their normal diet provides. Red Rose Dairy Booster Pellets with Methionine-Analog provides this needed methionine.

BOOSTER PELLETS is a new feed formulated to be used as a "top dress" feed (about 2½ lbs. per cow per day—in two feedings—for an intake of 25 grams of M-Analog). Or, Dairy Booster Pellets can be used in mixes with home grains. These pellets (17 per cent protein) are very palatable, easily fed and can be used in milking parlors, bunk feeding, and bulk feeding.

Trial feed Red Rose Dairy Booster Pellets with Methionine-Analog to your dairy herd and you'll see an improvement in milk production Try them . . . and you'll always feed them
