

Former FFA Members Organize A National FFA Alumni Association

The need for public understanding of agriculture's role in our national life and support for education in agriculture becomes greater every day. Those who have been members of the FFA and have entered farming or have gone on to another position in agribusiness, or to another field, comprehend this need.

Former members of the FFA realize more than anyone else what the FFA means to youth, and the opportunity it offers to young people in developing leadership, character and good citizenship—as well as knowledge in agriculture.

The desire of those who have been members of the FFA in the past to become involved and join together in a united effort has led to the establishment of the National FFA Alumni Association.

Its purposes are to help educate others in agriculture, to

help build confidence in today's FFA members and provide inspiration, to keep former members informed about the FFA and to share experiences and ideas with others.

Membership is open to former active, collegiate, or honorary FFA or NFA members and both present and former professional vocational agricultural educators. Membership in the association may either be direct or through state or local affiliates.

The National FFA Alumni Association consists of chartered state and local affiliates organized on a school, county, or other area basis. The national association charters local affiliates within a state until the state affiliate is chartered. Once chartered, the state association shall charter local affiliates within the state.

The Association is directed by an eleven man Alumni Council.
