

Animal Waste Seminar Planned for March 13

An Animal Waste Seminar will be held from 10 a. m. to 10 p. m. Tuesday, March 13 at the Farm and Home Center

There are three identical seminars planned during the day—one at 10 a. m., another at 2 p. m., and the final one at 8 p. m. Topics to be discussed will include Handling of Liquid Manure, Equipment for Liquid Manure, Economics of Liquid Manure, Construction of Liquid Manure Storage, and Environmental Regulations. The latest equipment for handling liquid manure will be on display.

Speakers for the event will be Roger Grout, Penn State Extension Service, Eugene Wentzel, Environmental Resources, Reading, Harold M. Zimmerman of Zimmerman Industries, Inc., Ephrata RD1, Jay Foreman, Littitz dairyman, and Lloyd Espenshade, Manheim.

The Seminar is being sponsored by Zimmerman Industries, Inc., Ephrata RD1.

Say, all you
Corn growers,

here's great news about better broad spectrum weed control...

Lasso plus atrazine does the job!

That's right! Now you can tank mix liquid Lasso from Monsanto with atrazine and control about any grass or broadleaf you can think of... including the Fox-tails, Fall Panicum, Crabgrass, Witchgrass, Cocklebur, Pig-weed, Smartweed; and even Annual Morningglory is no match for Lasso plus atrazine.

Don't settle for less than maximum weed control, but don't take chances either... Lasso plus atrazine is safe to your Corn and there's no carryover problem.

For tank mix instructions about Lasso plus atrazine see Your Farm Chemical Supplier Now

Lasso plus atrazine gets the job done in all major Northeastern soil types—wet weather or dry. Apply it pre emerge or preplant incorporated just once and forget it. Troublesome, yield cutting grasses and weeds will never see the light of day.

Conservation Club Elects Officers

The first meeting of the Northern Soil and Water 4-H Club was held in February, meeting off Route 222 at the Cloisterdale Egg Farms.

The Club elected the following officers: Dennis Underwood, president, John Deimler Sr., vice-president, David Burkholder, secretary, Chuck Deimler, treasurer, and Donald Martin, reporter. Other members are Charmaine Donmoyer, Sandra Dunkelberger, Barry Martin, Ronald Althouse, John Althouse, Kenneth Althouse, and Jeanette Dunkelberger. Club leader is John Deimler.

This spring the Club plans activities along with unit two of the workbook. During the summer the Club plans field trips and picnics.

County FFA Proposes Constitution Amendments

The officers of the Red Rose FFA met last week at Brownstown Vo-Tech School. The main item of business was revision of the County FFA Constitution.

It was felt that as it now stands, the Constitution does not allow maximum participation for all FFA members. Another goal was to update the wording so it relates more closely with the FFA today.

All of the changes are recommendations which will be voted on by the delegates at the May meeting of the County Chapter. The part in the Constitution which had the greatest changes recommended was the Red Rose degree. The recommendations were made in order that Vo-Tech students would not be at a

disadvantage in applying for this degree.

Officers attending included Rick Hess, president, Ray Martin, vice-president, Parke Hess, secretary, Don Miller, treasurer, Tom Stratlemyer, corresponding secretary, Louis Roather, chaplain, and Mel Weiler, reporter.

The next officers meeting is scheduled for 7:30 p. m. March 13 at Penn Manor High School. The main topic of this meeting will be the County Leadership Training Conference.

Row-Crop tillage specialists— a mounted chisel plow with spring-reset shanks

Seven models, 8 to 20 feet wide, offer strength and clearance for fast tillage. Optional spring standards stir and mix soil and cover. Coil springs stand above trash flow, compress to let shanks flex as much as 10 inches to clear rocks or stumps. See us for full information.

The
Satisfaction
That Comes
From
Doing A
Good Job Of
Farming

It's a great feeling to know that you are the master of your farmlands... that when you treat your soil right, it will treat you right. Liming is one of the most important factors in keeping your soil in the highest productive range. By raising the pH from a level below 6.0 to 6.5 or higher, you can expect to harvest 7 more bushels of wheat per acre, with similar increases for all other forage and cash crops.
