Recycled Paper Plant Doubles Production

A printing paper mill in Kalamazoo, Mich., has doubled its recycled pulp production to 100 tons daily, and has added a second work shift to utilize improved "de-inking" facilities just completed.

This Georgia-Pacific operation is the latest phase in an \$11 million-plus modernization project.

"The more sophisticated processing technique is resulting in top quality papers for both offset and letterpress printing," Donald P. Best, vice president, reported, "including high-speed business form rolls and sheets, computer bonds, register bonds in bright colors as well as snowy white, special book publishing and music grades, cover stock and even lightweight bible papers."

"Doubling high tonnage markets for such papers, based on quality and competitive pricing as well as environmental concerns, is a basic answer to growing local tax burdens for solid waste disposal," he emphasized.

"Waterbeds aren't new. Oysters have been using them for centuries."

Help Us Serve You

Don't assume we know about your farm organization's meeting. To get your meeting on our Farm Calendar, it's safer to assume we don't know.

Remind us by calling 394-3047 or 626-2191 or by writing to Lancaster Farming, 22 E. Main St., Lititz, Pa. 17543. You'll be helping us to serve you better.

P.S. — If you're not sure you told us already, we don't mind hearing from you again.

When the crew is you

HESSTON
StakHand 10

Even in a one-man operation, Hesston makes it possible to include a moderate size haying program with the StakHand® 10. Yes, the StakHand 10 will get your hay up and out of the weather at the hourly rate of four to six tons. And the stacks have self-storing, weather-resistant capabilities. Couple the StakHand with a StakMover 10 and you can put up hay one day, then move it later on. See us for all the benefits of a StakHand right away. We can even show you how the StakHand 10 system lends itself to feeding programs.

StakHand is a registered trademark of the Hesston Corporation

John Deere Electric Rider gives you quiet, carefree lawn care

The Electric 90 Rider is so quiet you can mow your lawn any time from sunrise to sunset and not disturb your neighbors. And it makes lawn care easier. No spark plugs, oil, or oil filters to change. No fuel to mix or store. Just switch it on and go. Charge the batteries overnight. Mow about 1½ acres per charge. See it today at our store.

BEEF PRICES TOO HIGH? COMPARED TO WHAT??

Yes, food prices have risen this year, as much or more than most consumer goods. BUT . . . THEY NEEDED TO COME UP! This week choice beef brought the farmer \$46 to \$48 per CWT.

- If beef prices had risen as much as 1ST CLASS POSTAGE since 1950, the farmer would have received \$77 CWT this week.

- If beef prices had risen as much as HOSPITAL COSTS since 1950 . . . beef prices would have been \$135.36 CWT this week.

- Compared to the rise in WAGES since 1950 beef would be selling on the hoof for \$80.69 the week.

- Compared to the price of a NEW MEDIUM SIZED CAR beef would have to sell for \$68.80 this week.

Food prices paid to farmers have risen on average of 11 percent in the last 20 years. Their average costs have risen 109 percent. The American housewife spends a smaller percentage of the family's take home pay than other housewives in the world for consumable food.

Food prices to high? Compared to the rest of the economy . . .

NOT AT ALL.

PENN-JERSEY HARVESTORE IN NEW HOLLAND, PENNSYLVANIA

is proud to be part of the American Agriculture. Our congratulations to the American Farmer for a job well done.
