## Sutan<sup>®</sup> Selective Herbicide works on grassy weeds in corn rain or shine

Sutan mixed in the soil before corn planting gives sure weed control, rain or shine. Sutan destroys weeds as they sprout, with no waiting for rain to put it in the soil.

Sutan controls tough nutgrass, fall panicum, Johnsongrass seedlings, foxtails, wild cane and many other weeds that reduce yields and complicate harvest. For weed-free profitable corn, see us now for Sutan.

**ENOS BUCKWALTER**  
Lancaster, Pa.

Your USS AGRI-CHEMICALS Dealer

The farmer gets 70.1 cents out of the average 113.2 cents per pound of beef. The dairy farmer receives only 30.5 cents on the average 59.8c spent for a half gallon of milk according to U.S. News World Report. Dairy farmers recognize a money-making opportunity when they "meat" one. Or to put it another way, do your kids like to drink their milk or do they prefer to eat it...broiled?

Lancaster Penna.

- Does not rub or flake off
- Is really white
- Cleans off windows and stalls easily

## LIMING PAYS and BAKER'S AG \* LIMESTONE

Liming pays off in healthier soil, better crops, stronger and more productive animals. In fact, it has been estimated that each \$1 invested in limestone returns from \$3 to \$10 in bigger and better yields.

Baker's agricultural limestone is your best choice because you can use the type that best fits the needs of your land. Choose high calcium to sweeten acid soil, raise pH and unlock vital plant nutrients. Use high magnesium to do all those jobs plus adding vital magnesium. Both types prepare your land to make full use of the fertilizers you apply. Call your dealer or Baker.

	Calcium Oxide	Magnesium Oxide
* Conestoga Valley Hy Cal Limestone from our Ephrata quarry	53.5%	5%
* Prime Lime dolomite Limestone from our Gap quarry	30%	20%
Hy-Mag limestone from our Paradise quarry	30%	20%
