

**Secondary Roads  
Safety Standards  
Are Researched**

Fifty-four miles of secondary roads in the Township of West Milford, N. J., may determine the net effect of detailed road markings on the actual reduction of traffic accidents

"We're putting the technological, research capabilities and experience of Potter Industries, Inc., on the line to evaluate marking systems in use today, as they relate to secondary roads," explains John P. Manley, executive vice president, and to seek the safest and most effective system for use on these roads."

**A  
MESSAGE  
FOR  
DADDIES**  
**They'd rather have you around  
than your insurance.**

Get yourself a good, thorough examination once a year. Once a year, let your doctor really look you over. It'll take a little time, and a little patience. And maybe he'll poke around a little more than you'd really like. And so he should.

The whole idea is to keep you healthy. If nothing's wrong (and more than likely, there isn't) hooray! Come back next year. But if anything's suspicious, then you've gained the most important thing of all: time.

We can save 1 out of 2 persons when cancer is caught in time, caught early. That's a good thing to know. All Daddies should know how to take care of themselves so that they can have the fun of taking care of their kids. Remember—it's what you don't know that can hurt you.
