

Board

(Continued From Page 1)
 proceedings by accepting testimony from Kenneth Mummert. Mummert is a dairy farmer from Chambersburg, Franklin County, and is also chairman of the Pennsylvania Farmers Association dairy division.

Mummert cited increases in

the cost of feed, milk hauling, labor equipment, supplies and replacement animals as reasons for an increase in the price paid to farmers by milk dealers. He said, "It is very evident that the present price paid to farmers does not reflect and compensate for the financial requirements to produce today's milk."

Mummert concluded his presentation by saying, "We are

requesting that the present Class I price for Area 4 of \$7.27 be increased \$1.03 to a level of \$8.30."

Dr. Paul Hand, assistant general manager and economist for Inter-State Milk Producers Cooperative, presented the bulk of the producer testimony. Hand recommended a \$1.15 hike over the present \$7.27 per hundredweight price for a total of \$8.19 payment to dairy farmers.

Certainly Lasso® plus atrazine controls fall panicum.

Fall Panicum

Plenty of growers last year learned late in the season that the "foxtail" they thought grew through their herbicide was really fall panicum.

And plenty of growers this season will learn that if you tank mix Lasso plus atrazine, you control fall panicum. Plus you'll control foxtails, crabgrass and other annual grasses

... and lots of broadleaves like smartweed, pigweed, and lambs-quarters. Lasso plus atrazine for your corn.

That's what you expect from your herbicide!

Ted Gray, right, received the Achievement Award for outstanding leadership in the Good Use 4-H Club's annual awards night Tuesday in Lancaster's South Christian Street Mennonite Church. Doris Thomas, Lancaster County Extension Home Economist, presented the award.

Good Use

(Continued From Page 1)

Club, sponsored by the South Christian Mennonite Church in Lancaster, tackles most of the projects which are the traditional mainstays of 4-H groups.

Nutrition programs are emphasized along with leadership development. Sewing and handyman projects have also been popular with the youths. One of the most popular projects, though, has been gardening. Last year, and again this year, Good Use members planted individual garden plots on the Lloyd Weaver farm on the Strasburg Pike in Lancaster.

Clean suede with an old piece of bath towel saturated with white vinegar, to look like new. Give the items a final brushing with a small wire brush.

MR. FARMER:

CERTAINLY LASSO® PLUS ATRAZINE CONTROLS FALL PANICUM.

Plenty of growers last season learned that the "foxtail" they thought grew through their herbicide was really fall panicum.

And plenty of growers this season will learn that if you tank mix Lasso plus atrazine, you won't find fall

panicum. Nor will you find giant foxtail, crabgrass and most other grasses... or lots of broadleaves like smartweed, pigweed, cocklebur.

Lasso plus atrazine gets 'em all in corn.

That's what you expect from your herbicide.

CUSTOM APPLICATION OF NITROGEN SOLUTION AND PESTICIDES AVAILABLE FROM YOUR LOCAL DEALER

In Quarryville and Buck Area
