Cost per Pound Guide For Buying Pork

Cost per pound is not a true guide to the best pork buy because some cuts have more bone and fat loss than others. A better way to compare meat values is on a cost-per-serving basis A serving is 2-1/2 to 3-1/2 ounces of cooked boneless meat.

COST PER SERVING GUIDE FOR PORK

SERVING per

-													
CUT	LB.	PRICE PER LB.											
		39	49	59	69	79	89	99	109	119	129	139	149
		COST PER SERVING											
Fresh													
Chops (center or rib)	4			15	17	20	22	25	27	30	32	35	37
Spareribs	1-1/3	30	36	45	52	59	67	74	82	89	97	104	112
Roast (loin or rib)	2-1/2			24	28	32	36	40	44	48	52	56	60
Boston Butt, bone-in	3	13	16	20	23	26	30	33	36	40	43	46	49
Blade steak (shoulder)	3	13	16	20	23	26	30	33	36	40	43	46	49
Cured													
Picnic, bone-in	2	20	25	30	35	40	45	50	55	60	65	70	75
Ham, fully-cooked,													
bone-in	3-1/2		14	17	20	23	25	28	31	34	37	40	43
Boneless, canned	4			12.	14	16	18	20	22	24	26	28	30
Center slice	5				14	16	18	20	22	24	26	28	30

EXAMPLE: Using the chart, assume that center cut chops are selling at \$1.49 per pound, spareribs at \$.59 per pound; and blade steaks at \$1.19 per pound. Which is the more economical buy? Reading the table under price per pound, the column shows center cut chops 37 cents per serving; spareribs 45 cents per serving; and blade steaks 40 cents per serving. Price per pound is not a true guide to the best buy.

Wilson Appointed Market Administrator of Order ${f 2}$

The appointment of Thomas A. Wilson as market administrator of the New York-New Jersey Milk Marketing Area was announced recently. He succeeds Dr. Anson J. Pollard who retires June 30. Dr. Pollard had been appointed market administrator of Order 2 in September 1965 succeeding Dr. C. J. Blandford.

The appointment of Wilson, effective July 1, was made jointly by the Agricultural Marketing Service, U.S. Department of Agriculture, the New York State Department of Agriculture and Markets and the New Jersey Division of Dairy Industry. Wilson joined the staff of the market administrator in September 1958 as an economist. In 1966 he was appointed assistant to the market administrator and promoted to assistant market administrator in 1970. He was approved by the USDA, New York State Department of Agriculture and Markets and New Jersey Division of Dairy Industry in June 1970 to function as acting market administrator.

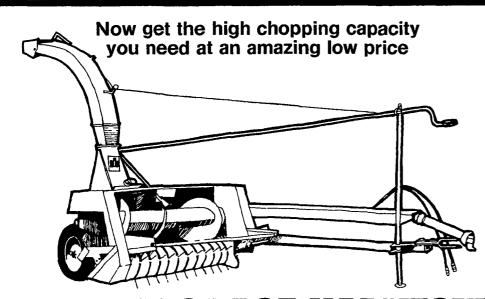

Wilson's interests in the dairy industry originated while working on his parents' dairy farm. He graduated in 1955 with a B.S. degree in Dairy Technology and was awarded the Master of in Agricultural Science Economics in March 1957, both from Ohio State University. Presently he is completing the

requirements for a doctorate degree at Cornell University.

Prior to his appointment as an economist with the New York milk order, Wilson was administrative assistant with the Ohio Dairy Products Association in Columbus, Ohio. He also spent some time as an instructor in Agricultural Economics at Ohio State University.

Cold Flower

Edelweiss is a perennial plant found at high altitudes in the mountains of Europe, Asia and South America. Its white, woolly leaves seem to protect the plant by preventing an excessive loss of moisture

an all-new rugged frame that's so rigid crossshaft universal joints are not required

- Optional sprockets provide a full range of Power sharpened knives Newfully shielded from 3/16 to 1-7/8-in
- Massive 9-knife cutterhead Knives have
 Available in 1-row unit offset cutting edge that never requires re-
- trolled delivery spout and friction-disc stayput deflector
- PTO universal drive for maximum safety 2-row unit wide and narrow Big 6-ft pickup unit and 90-in cutterbar unit for big capacity
