

Lester Jones, left, and Daniel Martin were two dairymen who spoke in favor of H.B. 1056 during Wednesday's public hearing at Millersville State College. Jones, from Medford, N.J., is president of Interstate Milk Producers Cooperative, while Martin, from Manheim, is vice-president.

Donald Hershey, an area farmer who spoke in favor of H.B. 1056.

"Carry only today's burden, don't add to it the burden of yesterday and the day before"—Mrs. Gary Hiott, The Pickens (S.C.) Sentinel.

YOUR FARM IS DIFFERENT!

SEP-KO and FARM-WAY know cleaning-sanitizing needs. Water analysis and milking equipment vary from farm to farm. So, it's only logical that one cleaning or sanitizing program doesn't fit every farm. For this reason Sep-Ko offers a broad line of cleaning and sanitizing products.

Arrange now for a FREE custom tailored cleaning program designed to your water and equipment.

HESSTON StakHand® 10

The efficient way to handle hay in 1- to 1¼-ton compressed Hesston HayStaks!

JUST ARRIVED
SEE IT ON DISPLAY

Now, you can have a one man haying system and put up 4 to 6 tons of hay an hour in compressed stacks that weigh 1 to 1¼ tons. The StakHand 10 picks up the hay from the windrow, packs it into distinctive, weather-resistant Hesston HayStaks that develop a natural, protective thatch, and unloads the stack in the field, at the roadside, or wherever you may wish to feed or store it. Come in and let us show you the economy of a Hesston StakHand 10 that lets you have a one man haying system. The 60" wide Flail pickup also picks up and stacks corn fodder.

Woman Designs Cars

Mrs. Mimi Ornes, the first woman designer hired by Ford Motor Co. Dearborn, Mich., said that it was easier for her to get the job because she was a woman, but that now the pressure is much more on her than if she were a man doing the same job.

Hired in 1970 because the company "was looking for a woman," her favored status quickly changed when she began working, she says.

The attractive designer believes the pressure is good for her and her career. "Being watched is helpful because it keeps you constantly on your toes. This is especially important in the automotive design field because of the competition."
