

An artist's concept of The First National Bank of Strasburg's newest office set to open September 12th at Routes 272 and 372 in the Buck.

## Strasburg Bank To Open Buck Branch Sept. 12

The First National Bank of Strasburg has set September 12th as the Grand Opening for their newest office at the Buck, Routes 272 and 372. The opening ceremonies will begin at 11:00 A.M. with a ribbon cutting and appearances by local dignitaries, including Senator Richard A. Snyder.

The new office is Colonial in design and resembles the Strasburg Bank's other branches. The two-story building is 47 feet by 62 feet and was constructed by H. W. Nauman and Sons, Inc. It has six regular tellers' stations and two sit-down desks, a unique feature of the Strasburg Bank. Provisions have been made for two open drive-in lanes with one more available when necessary.

## All-American Dairy Show Schedule Set

The Tenth Annual Pennsylvania All-American (PAA) Dairy Show opens September 24, 1973 for a five-day run at the Farm Show Building. The huge dairy cattle exposition attracts entries from more than a score of states and Canada.

The PAA format as developed by its sponsor, the Pennsylvania Dairy and Allied Industries Association in cooperation with the Pa. Department of Agriculture, has activities grouped into three areas -- six breed shows, three breed auctions and youth events.

An unofficial activity was added to the schedule last year and it proved to be so popular that Secretary of Agriculture Jim McHale and PDAIA president Obie Snider have convinced the show management to make it a permanent part of the PAA.

The new event back for a second appearance is Family Day. It's unofficial because it is held Sunday, September 23, 1973, the day before the opening of the PAA. But the cows and bulls, heifers and calves you'll see are all official entries in the premier dairy cattle show east of the Mississippi.

**HERE IT IS**

**NEW HOLLAND FORAGE HARVESTER SUPER 717**

You don't need a high-powered tractor to deliver fine-cut forage. The Super 717 chops as fine as 3/16-inch. The 24-inch diameter cutterhead makes efficient use of power to produce finely-chopped forage. The reversible, double-edged blades give you . . .
