Last month I attended Ag Progress Days in Hershey and found it a very pleasant experience.

You see, I didn't inspect all the machinery as my husband and son did. In fact there was very little of the show that I did see except for several tents of Extension exhibits and demonstrations.

My day was spent at the Lancaster Farming booth handing out free copies and meeting

some of the nice people who read our paper. They came from Franklin, Bucks, Juniata, Huntingdon, Montgomery and York Counties. I even sold several subscriptions to New Jersey residents.

The men liked the livestock market reports and the women enjoyed the Recipe Exchange in the paper.

 We've had a sale of household goods in the family and as I've said before it is a rather sad occasion when a home is broken up and changes made.

Acquiring new and old pieces of furniture has really shaken up our house. What a job to move the piano to make room for a lovely walnut Dutch cupboard.

To get rid of one sofa and replace it with another isn't too bad, but when you must sell your desk in order to fit everything else in, that isn't fun. A college boy will put it to good use at Gettysburg as he answered my advertisement and loaded it on his car roof.

Many of the old pieces will be cherished for years as we learn the story behind their use. The flail, spinning wheel with flax, the blue flowered stoneware jug and white oak egg basket are treasured possessions.

## Feed Beacon Calf Scour Stop-R

So good it's already in demand from across the country.

Beacon's special "synergy" of ingredients — antibiotics, trace minerals, A, D, E, and B complex vitamins — does the job quickly. Helps dry up scours, restore appetite, combat dehydration. Promotes all-around good health.

Simple as A, B, C, too. Tear open a 4-oz. packet, one per calf. Mix with warm water. Feed twice a day for 3 days. You treat while you feed!

Contains 20 percent protein from appetizing, easily digested milk products, plus 15 percent micronized fat for speedy assimilation. You get 3 days feeding and 3 days medication for pennies.

Scours stop; calves bounce back.

Try it . . . you'll believe it!
