the field work himself with equipment borrowed from his father

In addition to presenting an impressive farming program to the judges, Ray had a long list of FFA activities and other achievements which were considered along with his farming operation. For the 1973-74 school year, he is president of the Grassland FFA chapter, and is area vice-president. He has also won public speaking prizes in county, area, regional and state contests, and was president of the county's first place parliamentary procedure team that took second prize in the area for 1971-72.

Larry Ressler

Star Agribusinessman

Dedication to serving farmers' needs won the Lancaster County Star Agribusinessman award for Larry Ressler, a senior at Garden Spot and sentinel of the Grassland FFA Chapter.

Larry works at Zimmerman's Hardware Store in Blue Ball. He is developing into a first-class serviceman for milking equipment, and hopes to specialize in that kind of work after graduating from high school. He

Wednesday, Sept. 5
Live Poultry

Prices about steady on light type hens. Demand fairly good for adequate offerings. Bookings for later pickup fairly heavy in some quarters. Offerings of Heavy type hens adequate for a fair interest.

Prices paid at farm: Light type hens 18-25, mostly 23-24 in Pa., mostly 22-25 in N. J. Heavy type hens TFEWR

is the son of Mr. and Mrs. Harold Ressler, East Earl RD1.

Besides working on milking equipment at Zimmerman's, Larry assists on plumbing, heating and electrical work, accompanies servicemen on trips to the field and waits on customers in the store. He also helps install new DeLaval milking equipment.

Before he began working at the hardware store, Larry completed FFA farming projects with hogs, a steer and veal calves. He's also worked as a hired hand on the farms of Lester and Clarence Martin, and he says that his on-farm experience is proving useful in his job of serving farmers.

Robert Burkhardt - State

Production Proficiency Award
Bob Burkhardt has been involved with turkey growing since 1968, when he began working part-time on Zimmerman's Turkey Farm. Since graduating from Garden Spot High School in 1972, he has worked full-time on the farm and is now responsible for the care of 40,000 of the operation's 150,000 birds.

Bob is the son of Mr. and Mrs. James H. Burkhardt, East Earl RD1.

In the farming operation, Bob helps make the management decisions for the birds entrusted to his care as well as helping to decide on courses of action for the total farm. There are about 100 acres involved, some 20 in crops, 50 in rangeland for the birds and another 20 in woods.

Bob's first FFA project was with hogs, but he picked a bad time to get into the hog market. Prices were low when he sold, and his profits were unsatisfactory.

So, he applied for a job at his neighbor's turkey farm. Since then, he hasn't thought of going back to hogs. In the future, he hopes to move onto the farm, and possibly take complete responsibility for one of the two farms in the operation.

In ancient times only about 200 kinds of plants were known. Today scientists have named between 350,000 and 400,000 species, with about 2000 new kinds of plants discovered or developed every year.

Pa. Broiler Placements Up 23 pct.

Placements of broiler chicks in the Commonwealth during the week ending September 1, 1973 were 1,331,000. The placements were 23 percent above the corresponding week a year earlier, and 8 percent above the previous week. Average placements during the past 10 weeks were 11 percent above a year earlier.

Settings for broiler chicks were 1,962,000 - approximately the same as the previous week and 18 percent above the comparable period a year earlier. The current 3-week total of eggs set is 9 percent above the same period a year ago.

Inshipments of broiler-type chicks during the past 10 weeks averaged 9,000 compared with 22,000 a year ago. Outshipments averaged 297,000 during the past 10 weeks, 10 percent above a year earlier.

Placements in the 21 States were 57,320,000 - approximately the same as the previous week and about the same as the corresponding week a year earlier. Average placements during the past 10 weeks were 4 percent below a year ago.

Settings were 66,480,000 - 6 percent below the previous week and 7 percent above a year earlier. The current 3-week total of eggs set is 2 percent above the comparable period a year ago.

The latest automatic bale wagons allow one man to pick-up, haul and stack up to 3,100 bales of hay in an eight-hour day. They are produced by the New Holland Division of Sperry Rand Corporation.

sustain top production with the BABCOCK B-300

Keeping production up...costs down...is the profit key in poultry operations. And more and more records on commercial flocks of Babcock B-300's... "The Businessman's Bird"... show sustained production of top quality eggs...often with an additional 20 to 30 eggs per bird housed over other strains. Come in... look at the records and the B-300... "The Businessman's Bird".
