

Soybean Breeders Seek Cooperation of Chinese

The American Soybean Assn. (ASA) has initiated a major program designed to earn Chinese-U.S. cooperation in collection of vitally needed soybean germ plasm for breeding programs.

Ralph Jackson, ASA executive vice president, said, "Efforts through official channels are continuing that will permit soybean scientists to enter the People's Republic of China and collect germ plasm."

"ASA will ask leading soybean breeders to go to China to collect necessary materials. Funding has already been set aside for the program." Germ plasm collection in part of the total program of the ASA Research Foundation, non-profit research arm directed by soybean producers.

In addition, the Research Foundation will support additional programs to grow, catalogue, store and disseminate to soybean scientists the germ plasm that has been collected during these explorations.

Ice Follies At Hershey

Shipstads and Johnson Ice Follies comes to the Hersheypark Arena November 27 thru December 2. America's perennial favorite arena entertainment has been seen by literally thousands of Ice Follies fans.

As always, the production numbers, starring a galaxy of skating greats, are the outstanding features of the show. Gorgeous girls, wonderful music, exquisite lighting and staging and beautiful costuming all interweave to present something new and different in the realm of ice shows.

"Snoopy", star of the "Peanuts" gang and friend of Charlie Brown, returns in a featured role to enhance the drawing power of Ice Follies.

Richard Dwyer, Mr. Frick, Judy and Jim Sladky, U.S. National dance champions, the famed Cook family of skating greats, Karen Kresge, Susan Berens, Atoy Wilson, Jay Humphry, and a host of other stars are also featured.

There is ample comedy. In addition to the antics of Mr. Frick, Kevin Bubp, the Scarecrows and the Funsters provide laughs galore.

The Executive Producer of Ice Follies is Tom Scallen, the production director, Bob Shipstad. The show is directed by Bob and Helen Maxson with dance routines specially choreographed by Stanley Kahn. The music is under the direction of Paul Walberg and William Tury designed the settings for the extravaganza.

Ice Follies '74 is two and a half hours of entertainment for the entire family.

Jackson's official request to the Chinese Academy of Science in Peking for mutual cooperation is said in part, "The soybean has its origin in China and was introduced to the U.S. in the early part of this century. Since that time, it has had a fantastic growth. We feel it has a great future for our country as well as yours."

"We hope the Chinese Academy of Science along with other appropriate groups would host this group of scientists. We would also anticipate that some of your researchers would be able to draw upon the knowledge of these same U.S. scientists to help your people."

Jackson added that he anticipated "no problem in getting scientists to China, but diplomatic relations take time."

Together, China and the U.S. account for more than 90 percent of the world's soybean production. Currently, all U.S. varieties now in use can be traced back to five parent lines.

More germ plasm will increase the number of those parent lines used in breeding programs. At the same time, scientists will be able to build in more yield power and disease resistance by using the best characteristics of each new parent.

Despite increased production, yields have remained static at about 27-28.5 bushels per acre, Jackson added.

PUBLIC SALE SATURDAY, NOV. 24, 1973

Time 1:30 P.M.

In Perry Co. situated in the borough of Landisburg, Pa., 30 miles West of Harrisburg, Pa.

Make More Room in Clothes Closet

If there's no room in your clothes closet, don't blame the size of your closet. It may be that you've allowed too many things to collect. Mrs. Ruth Ann Wilson, Extension clothing specialist at The Pennsylvania State University, suggests you carefully inventory the clothes in your closet. Discard those that are too small, or that were unwise buys. Don't wait until

they've gone out of style before you decide to remove them. Be honest with yourself. If you really don't need them, give those clothes to someone who does. There are many organizations that will gladly take your unwanted clothing.

No "Pick Up" Here

Secretary on phone: "No, sir, Mr. Skintight is out to lunch... But he won't be gone long. Nobody took him."
