

Princep keeps panicum and crabgrass out of your corn.

Up to harvest.

Even in a wet year.

That's one reason why Princep® teams up so naturally with AAtrex®.

Of course, there are other herbicides you can use with your AAtrex.

But Princep assures you control of fall panicum and crabgrass. Right up to harvest.

Essential if you expect to grow good, clean corn. This year or any year.

Princep also teams up with AAtrex to stop most annual grasses and tough broadleaves. Up to harvest.

Another thing. Mix Princep in with your AAtrex, and you can spray when you find the time. Earlier than any other herbicide combination. Before planting, at planting or afterwards. But before weeds and corn come up. In a weed 'n feed program if you choose.

You won't have problems rotating to soybeans, either. Just follow the label.

Here's something else about Princep that'll interest you. Now it comes in liquid form. New Princep 4L.

Making it a perfect match for AAtrex 4L. Easy to measure. Easy to mix.
