

# York Hosts Vet Clinic

Some five hundred veterinarians from Pennsylvania, Maryland and other states will gather in York, Pa., on April 10 to attend the 7th Annual Mid-Atlantic States Veterinary Clinic.

The Clinic is being sponsored by the Pennsylvania Veterinary Medical Association in cooperation

Soil Stewardship Week, a nationwide observance which emphasizes man's responsibility to protect and

with the Maryland Veterinary Medical Association, which sponsors the event in alternate years.

Part of the Association's continuing education program, the annual clinic allows practicing veterinarians to see and discuss new techniques and procedures for the care and treatment of both small and large animals.

Outstanding veterinarians in selected fields will present 14 small animal and 12 large animal demonstrations during the Clinic, which will be held in Memorial Hall at the York Fairgrounds.

The program will begin at 9:00 a.m. and will conclude at 4:00 p.m.

conserve soil, water, and other natural resources, will be May 19-26 this year, G. Pownall Jones, Chairman of the Chester County Conservation District announced today. Mrs. Gertrude Yarnall, is Chairman of the County Soil Stewardship Committee.

This year's theme, "A Different Place," emphasized "how the many changes now occurring in the nation affect our continuing responsibility to be good stewards of the land," said Mr. Jones.

Mr. Jones cited the energy shortage, environmental pollution, and the growing concern over land use as examples of changes and developments affecting the use of America's natural resources.

"We hope," said Mr. Jones, "that during Soil Stewardship Week, millions of Americans will pause for a moment to consider their responsibilities for the protection and use of the Lord's earth."

The district is supplying local churches with programs, bulletin inserts,

and copies of this year's observance booklet. The material was prepared by the National Association of Conservation Districts. The advisory committee is composed of churchmen of different faiths.

Nineteen-seventy-four will be the 19th consecutive year that the Chester County Conservation District, along

with almost 3,000 similar districts throughout the nation, has sponsored soil stewardship week. The custom of setting aside special "Rogation Days" for this purpose began more than 1,500 years ago in France, when French peasants prayed for help after crop failures had brought widespread hunger.

When Power Fails depend on **PINCOR** Electric Plants

16 KW 25 KW 50 KW

- Rated for continuous duty - 12 KW to 50 KW
- Tractor driven and automatic engine driven
- High motor starting capacities
- Slow speed - 1800 RPM operation
- Heavy duty construction
- Cool running triple chain drive transmission
- Rainproof construction
- Meets NEMA codes
- Completely wired control box
- Trailer and 3-point hitch options
