## CONTROL WEEDS IN ALFALFA WITH BUTYRAC-118

Apply 2 to 4 weeks after alfalfa emerges. Controls broadleaf weeds in seedling or established legumes. This remarkable selective action — killing many broadleaf weeds without affecting certain broadleaf crops — has been proven by research men and commercial growers throughout the country.

We are distributors for a complete line of

WEED KILLERS

### B COMPLEX'S COMPLEX VITAMIN

Vitamin B12 is the most recent vitamin to be identified and synthesized in a pure form. Its molecule is so large and complex, it sometimes seems as if nature wanted to keep this intricate secret as long as possible. It is the only known biologically active compound which contains cobalt, a rare mineral element.

Good sources of vitamin B12 such as liver, lean meat, fish, milk and eggs contain less than one part of the vitamin per million, and because vitamin B12 is water-soluble, it must be ingested in the diet daily to help assure good nutrition. Scientists have recently discovered that women who are taking oral contraceptives may need more of the vitamin than they normally get from their meals.

To supply the recommended amount of vitamin B12 needed by women taking oral contraceptives, a new vitamin-mineral product has been formulated called Femins. This nonprescription special dietary product provides adequate vitamin B12 along with other vitamins and minerals required by women using oral contraceptives.

Vitamin B12 is obtained commercially as the by-product

in the manufacture of antibiotics, such as aureomycin and streptomycin.

All the vitamins in the B complex were at first thought to be just one, vitamin B, which was discovered

by Sir F. Gowland Hopkins between 1906 and 1912. He found that a chemically pure diet of carbohydrates, fats, proteins and minerals could not keep his laboratory animals healthy, unless he added fresh milk. He surmised that the milk contained certain "accessory food factors." Between 1913 and 1915, two of these factors were isolated by other research workers and called Vitamin A and Vitamin B. Vitamin B12 was not separated from the B complex until after 1936.

Vitamin B12 is the most recently identified vitamin that can add new life to your life.

Here's a real tear-jerker: In 1810, Dr. Samuel Hahnemann prescribed a substance which he called *lachryma jilia* — the tears of a young girl!

The one feed additive for growth and feed savings plus 4 way control...

In our feeds helps you control

★ ATROPHIC RHINITIS  
★ SCOURS

★ CERVICAL ABSCESSSES ★ STRESS

AUREO S-P 250\* has proved to be the one feed additive that provides a wide range of benefits to pork producers. No other antibacterial in feed does so many things to help produce fast gains — improve feed efficiency — and provide superior protection against the major diseases that threaten sows and growing hogs.

AUREO S-P 250 helps save feed — reduces labor and medication costs — by keeping hogs gaining in the presence of atrophic rhinitis, controlling bacterial scours, reducing cervical abscesses — and helping prevent these diseases during stress.

AUREO S-P 250 is beneficial at every stage of growth and production.

\*AUREO S-P 250 is the registered trademark for American Cyanamid Company's premix of AUREOMYCIN® chlortetracycline SULMET® sulfamethazine and penicillin. Withdraw seven days before slaughter.

There's nothing old-fashioned about Sta-Rite stanchion barn pipeline milking.

Modern Sta-Rite dairy equipment makes every milking system better, more efficient, easier on you and your cows. And you can add any of these up-to-date products to your stanchion barn or milking parlor.

The Sta-Rite Full-View Milker permits a constant visual check of milk flow. Cuts milking time, reduces over-milking.

Sta-Rite's 900 Series Milk-house Panel is factory assembled and tested. Switches instantly from 'milk' to 'wash' for thorough pipeline cleaning. Automatic self-drain.

The new Sta-Rite Vac-Sav Milk Valve reduces vacuum loss to a minimum. Also gives protection against contamination.

A Sta-Rite Full-Vac vacuum pump insures positive vacuum for your milking system.

Make pipeline washing completely automatic and Grade A clean with a Sta-Rite Full-Convenience Pipeline Washer. A 24-hour timer lets you pre-program all necessary wash, rinse and sanitize cycles with fail-safe protection.

Sta-Rite... a leader in dairy equipment. Whatever the size of your herd, Sta-Rite has the complete automated milking system for you. Sta-Rite Stanchion Barn, Full Comfort Parlor, Full Circle, and Reflex Arm Milking Systems will help you milk better, faster and more profitably.

We're proud to be the official milker at World Dairy Expo.
