New Holland 4-H Baby Beef

The fifth meeting of the New Holland 4-H Baby Beef club was held at the home of Gordon and Audrey Hoover on April 5 at 7:30 p.m.

The members decided to go to Longwood Gardens and Lanapead Park for a trip.

After the meeting, Lunford Weaver showed slides of his 2 years in Belize while in the voluntary service. Then our hostess, Mrs. Raymond Hoover, served refreshments.

and leaders will meet in the near future to plan the 1975 year.

Enrollment forms and project books were handed out. Insurance forms were also handed out and must be

returned by May 1.

Ernest Wyatt Risser, president, conducted the meeting. Next meeting will be held on May 7 at the home of Sonja and Sandra Hayes, 1924 Leinbaugh Avenue.

Best answer yet to fall panicum and crabgrass in corn

Add Princep® herbicide to your AAtrex® spray. Mix in a one-to-one ratio, and apply at the same rate as AAtrex alone. Controls fall panicum, crabgrass, and other fall grasses. Gets the early weeds, too. And, it costs less than other combinations.

See us. We've got the details.

How you can get a
dozen more eggs per hen
for less than 3¢

The AUREOMYCIN Week-A-Month Layer Program

The economic advantages of feeding AUREOMYCIN to commercial layers have been well documented.

Now, with today's cost of feed and the price of eggs, new interest has been shown for this accepted and profitable practice.

Whether you sell eggs for 40 or 60 cents a dozen, this Cyanamid program can increase your income ... substantially.

The Week-A-Month Layer Program involves feeding 100 grams of AUREOMYCIN chlortetracycline per ton for one week at housing and for one week each month for as long as birds are in production.

Field trials show that for an investment of less than 3 cents in AUREOMYCIN per layer you can expect an extra dozen eggs per bird, or an extra return of \$400-600 per 1,000 birds — with eggs at 40-60 cents per dozen.

The Week-A-Month feeding program with AUREOMYCIN is equally effective for broiler breeders.

Trial results show that an investment of less than 3 cents in AUREOMYCIN per breeding hen can produce 6 extra chicks per bird, or a total of approximately \$450 extra return from every 1,000 breeders a year — figuring the cost of chicks at 7.5 cents.

Whether you're producing table eggs or broiler chicks, for extra profit put your next flock on the Week-A-Month Layer Program with AUREOMYCIN.
