

Grange Leadership Training School Set

A workshop on today's problems, concerns and issues will feature the 51st leadership training school of the Pennsylvania State Grange which will be held June 25-27 at Gettysburg College.

The leader will be Daryl K. Heasley, rural sociology extension specialist at Pennsylvania State University. In his discussion

of current affairs, he will pose the question, "Problems, Concerns, Issues: What's a Person to Do?"

Miss Mildred M. Shultz, of Somerset, state Grange lecturer, will be in charge of the school. The theme will be, "If It's Up to Me I Must Be a Leader."

Workshops on Grange ritual and activities will be

conducted by A. Wayne Readinger, state Grange master, and J. Luther Snyder, state secretary. Two national Grange officials also will conduct workshops, William J. Brake, national lecturer, on programing planning, and Ted E. Amick, assistant to the national master, on membership and legislative matters.

Other workshop leaders

will be Mrs. Grace Rodgers, RD3 Greenville; Joyce Caulkins, RD2 Port Allegany; Mrs. Wilbur Hively, RD1 Montgomery; Mrs. Orlin Schoonover, RD1 Carbondale; Mrs. Vertis Hughes, RD1, Derry; Mrs. Lillian Anderson, RD3 Bedford; Glenn W. Stuck, RD1 Selinsgrove; Mrs. Jesse Wood, RD2 Nottingham, and Esther Schaeffer, retired

Berks County school teacher.

Presentation of lecturer of the year awards at the subordinate (local) and Pomona (county) levels will be a highlight of the program. The award was initiated last year when a subnordinate lecturer of the year was selected. The first winner was Barry Driesbach, of Centerport Grange, Berks County.

Farmland Recreation Program Continued

A 1972-73 pilot program testing feasibility of providing public access for recreation on the nation's farms and ranches will be continued this year, Acting Secretary of Agriculture J. Phil Campbell announced.

"The demand for outdoor recreation areas has never been greater," Campbell said. "Many farms and ranches are located near heavily populated areas and have desirable open spaces offering significant recreation opportunities."

"Further testing is needed to evaluate the program's feasibility," he added. The pilot program first began in 1972.

During 1974 the public access program will be carried out in Alabama, Iowa, Michigan, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania and South Carolina. A total of \$1.5 million has been allocated for use in the 10 states.

To be eligible to participate in the program a farm must have a cotton, feed grain or wheat allotment.

USDA's Agricultural Stabilization and Conservation Service (ASCS) will again administer the program. As in the past, state and county ASC committees will operate the program in consultation with state and local wildlife management agencies.

Participating counties will be announced later.

Which Bug is the Termite?

The top one. The bottom bug is a flying ant. Notice its narrow waist. The termite has a broad waist. They're quite different, actually. If you have termites or suspect them in your home, call us.
