

# THE OLD FARMER'S ALMANAC

JUNE 3-9

Now there are roses and pleasant scents for noses.

Find time to spoon under full June moon . . . William Lilly sneezed to death June 9, 1681 . . . Time for strawberries . . . Full moon June 9 . . . Plant late potatoes now . . . Average length of days for week, 15 hours, 10 minutes . . . American Indians receive U.S. citizenship June 3, 1924 . . . Dunkirk evacuated June 4, 1940 . . . Partial eclipse of the moon June 4 (but not visible from U.S.) . . . When the press is free, and every man able to read, all is safe. *Thomas Jefferson.*

**Old Farmer's Riddle:** What was the telephone number in the Garden of Eden? (Answer below.)

**Ask the Old Farmer:** Is there anywhere preserved an old-fashioned whipping-post? K.N., New Orleans? Yes, and there ought to be more.

**Home Hint:** To keep mildew from forming inside your refrigerator on the racks, wipe it occasionally with pure vinegar. The acid will kill the mildew fungus. *Riddle answer: 281 Apple*

## OLD FARMER'S WEATHER FORECASTS

**New England:** Most of week cloudy with scattered rain; clearing and warm by weekend.

**Greater New York-New Jersey:** Rain to start, then partially clear and cool; rain and very cool latter part.

**Middle Atlantic Coastal:** Partly cloudy and mild at first, then rain; end of week clear and very warm.

**Southeast Coastal-Piedmont:** Week begins partly cloudy and cool, then clear and hot with showers; clear and warm latter part.

**Florida:** Rain all week in south; partly cloudy and cool at first in north, then clearing and very hot by week's end.

**Upstate & Western N.Y.-Toronto & Montreal:** Rain to start, then clearing in east; warm and sunny throughout region latter part.

**Greater Ohio Valley:** Week begins sunny and warm, then hot in west and cooler in east; late week rain in east.

**Deep South:** Most of week clear and hot in central and west but partly cloudy and cool elsewhere.

## HAY & STRAW SALE EVERY WEDNESDAY AT 12 NOON

PAUL Z. MARTIN SALES STABLES  
2 miles East of Intercourse  
Sale managed by Harvey Z. Martin

**Ham A La King**  
Meat leftover from a baked ham dinner can be converted into an economical yet distinguished dish that merits a place on the company luncheon table. Ham a la King is a pleasing example. Simply add cubes of cooked ham, canned mushrooms (stems and pieces), chopped pimiento, sliced ripe olives and chopped hard cooked egg to a medium white sauce and heat through. Serve the mixture on toast triangles. It's a smooth and easy recipe that will delight guests. Makes fine family fare too!

# IM-PRUV-ALL

Nothing can take the place of common sense and proper management. The IM-PRUV-ALL products, feed balancing and soil balancing are tools to help make farmers better managers.

Better managers make more money.

Give yourself a raise in pay by calling your IM-PRUV-ALL dealer. He will show you how to make better fermentable feeds, save feed and fertilizer, increase production and decrease herd health problems.

Call the IM-PRUV-ALL Dealer closest to you.

**SHEEP 976:** Compared with 740 head last week, and 891 head a year ago. Spring slaughter lambs uneven, mostly 50 cents to \$4 lower. Choice 30-60 pounds spring slaughter lambs 48.75-54.00, 65-100 42.50-52.00, Good 50-80 36.00-47.50. Slaughter ewes 10.00-21.25.

## JUDGING A HOUSE BY ITS COVER

Spring is the ideal time for a bi-annual inspection of the exterior of your home. If you correct small problems as soon as they appear you may be spared the worry and expense of major repair work.

For instance, small cracks in brickwork, stone, wood or metal that let moisture and air seep in can be sealed with a silicone rubber caulking compound.

A silicone rubber caulk or sealer is impervious to moisture in any form—humidity, water, steam, ice—and the constantly changing temperatures of summer and winter will not affect its permanently flexible seal. And, unlike most other caulking compounds, silicone caulks and sealers won't become brittle with age.

There is absolutely no reason why sealing repairs have to be "unsightly." Dow Corning manufactures black, clear and aluminum silicone sealers, in addition to silicone rubber bathtub caulk in pink, yellow, blue, green, beige, and white. Either bathtub caulks or silicone sealers are ideal for a wide variety of interior or exterior repair jobs and one of the nine colors available will complement almost any work surface.

Silicone caulks and sealers are ideal for repairing and waterproofing rain gutters and downspouts. They can also be used to seal around window air conditioners and exhaust fans to keep hot, damp air outside.

The joints between exterior siding and window and door frames are also im-

portant to check for moisture. All joints should be sealed tightly and again, a silicone caulk or sealer is the perfect material for a long lasting job. You can also tackle repairs to your fiber glass patio canopy, since silicone rubber is one of the few sealants that has excellent adhesion to fiber glass.

You can put silicone sealers and caulks to work plugging holes where wires and pipes enter the house, and for weatherproofing outdoor lighting fixtures. Even emergency repairs on a torn window screen just need a piece of masking tape on one side of the rip and clean silicone rubber sealer on the other. Remove the tape when the sealer cures and your screens are "bugproof" again.
