

Food Preservation Meetings Scheduled

Very chortly gardeners will be reaping the "fruits of their labor" for their gardens. Whether this is your first experience at gardening or you are a gardener of many years, you will probably be canning, freezing, pickling or making jellies from some of your foods. To bring you the latest information and techniques on food preservation, the Cooperative Extension Service home economists of Penn State University are offering a series of food preservation workshops. The recommended and tested methods of food preservation will be shown. If the proper methods are not used, food poisoning and spoilage may result. Anyone can attend, but

advance registration is required by calling the York Extension Office in the Court House. Phone 848-3301 ext. 276.

All meetings will be held at the 4-H Center from 1:00-3:00 p.m. The following workshops are being offered: "Canning Know How" - June 27; "Freezing Know How" - July 10; "Make Your Own Jellies and Jam" - July 16; "Are You In A Pickle About Pickles" - August 1.

Broiling Tip

Steaks, chops or meat patties at least an inch thick are best for broiling, so are cured ham slices half an inch thick. Thinner pieces of meat usually are more satisfactory when pan broiled or pan fried.

Contestants vying for the title of York County Dairy Princess are from left: Shirley Thompson, Vicki Kimmel, Linda Rinehart, Gale Bentz. Second

row: Linda Taylor, Lorraine Gerber, and Angela Conley.

York County Dairy Pageant

The York County Dairy Industry will sponsor its Dairy Princess Pageant on Saturday, June 15, at the 4-H Center in Bair, beginning at 8:00 p.m.

Hal Raymond, the mor-

ning disc jockey on WSBA will be the master of ceremonies with entertainment provided by the Good Brothers.

The seven girls who will be vying for the Dairy Princess title are: Shirley Thompson, daughter of Mr. and Mrs. Rodman Thompson, RD3, East Berlin, who is a student at Delaware Valley College.

Vicki Kimmel, daughter of Mr. and Mrs. Fred Kimmel, Dillsburg, who is presently working as a medical secretary.

Linda Rinehart, daughter of Mr. and Mrs. Adrian Rinehart, RD, East Berlin, who is employed as an insurance secretary.

Gale Bentz, daughter of

Mr. and Mrs. Laverne Bentz, Wellsville, who is a student at Northern High School.

Linda Taylor, daughter of Mr. and Mrs. Dwight Taylor of Brogue, who is a student at Red Lion High School.

Lorraine Gerber, daughter of Mr. and Mrs. William Gerber, Jr. of Dover, who recently graduated from Dover High School.

Angela Conley, daughter of Mr. and Mrs. Benjamin Conley, RD1, Lewisberry, who is employed as a beautician.

All the contestants are the

daughters of Holstein Dairy Breeders in York County.

ATTENTION DAIRYMEN:

Did someone say you should put in a 2 inch or 3 inch milk line? Yes, because the conventional pipe lines carry milk, and the milking vacuum in same pipe. Your galvanized pipe only carried pulsation vacuum (the vacuum between shell and inflation.)

Oh, a larger milker line may help your milker, but if a slug of milk goes down a 2" line your vacuum drops, just like in a 1 1/2" line, so before you scrap that old 1 1/2" line, why not use that old 1 1/2" line to transfer milk only, and install another 1 1/2" stainless steel line to carry your milking vacuum, with no milk or liquid in this line you have free moving air, no drop in vacuum. Then use the new Zero pipeline unit with above, you have the best milker you can buy, no air injection needed, to slug milk up the hose.

Did you ever stop and think? Would you like that same air sucked through your drinking water.
