

Dr. John Moss discusses plans for an upcoming Cumberland County Junior County Conservation School with Bonnie Boughman, center and Lenore Miller. Both girls are sophomores at Lampeter-Strasburg High School, and they'll be attending the week-long conservation school under the sponsorship of the Lancaster Environmental Action Federation. Dr. Moss is president of LEAF. Bonnie is the daughter of Mr. and Mrs. Donald Boughman, 127 Henrietta Ave., Lancaster, and Lenore is the daughter of Mr. and Mrs. Robert Miller, 122 Miller Ave., Lancaster.

Fertilizers
Liquid fertilizer or dry fertilizer is a common question. However, it doesn't make much difference which form is used as long as you apply the same amount of plant food and know the cost per unit of that plant food. For example, 100 pounds of a dry fertilizer such as 5-10-10 and 100 pounds (about 10 gallons) of a 5-10-10 liquid fertilizer solution should contain the same amount of actual plant food—5 pounds of nitrogen, 10 pounds of phosphorus, and 10 pounds of available potash. All fertilizer products sold must contain a label giving the fertilizer values. When applied at the same time, or at the same stage of growth, both should give equivalent results. The important thing is to evaluate the amount of actual plant food being applied and the cost per pound of that plant food.

Coins Of Platinum
Platinum coins were circulated in Russia between 1828 and 1845. The 3-, 6-, and 12-ruble coins proved impractical because the price of the rare metal fluctuated too widely.

Ladies Day Set July 16

Ladies Day for the Pennsylvania Farmers Association Region II will be held, Tuesday, July 16, at the Embers in Carlisle, Pa.

The morning session will begin at 10:00 a.m. and will feature an arm chair tour of the Orient with Mr. Hal Bretz as guide. A film will be shown on the consumers thought of farming.

After the noon luncheon Mrs. Aileen Mintz will speak on "Being a Woman". She

will lead a discussion and answer questions on self improvement.

Regional contests will be held in selecting a talent winner and a Mrs. P.F.A.". County contestants are Suzanne Martin, New Holland, talent, and Mrs. Susan Kauffman, who will give an essay "A Day In the

Life of a P.F.A. Wife". in the Mrs. P.F.A. contest.

Reservations can be made by sending a check of \$4.25 to Mrs. Robert Kauffman, Box 655, RD1, Elizabethtown. A bus will leave Johnston's Bus Service in Mt. Joy at 8:30 a.m.

The reservation deadline is July 10th.

Flowering plants

Hybrid tea roses are among the most popular summer flowering plants in this part of the country; however, they do need attention each week to control leaf diseases and insects. Early June produces the first crop of blooms and the buds look very promising this year. Growers should spray weekly with Benlate or Folpet to control leaf diseases and include either Sevin or Malathion to control the aphids and other insects. Effort should be made to cover the underside of the leaves as well as the top surfaces. Following the first blossom period some growers will fertilize their plants to encourage new growth and additional blooms later this summer. All fertilizing should be done by early August to permit time for the growth to harden before winter.

NEW

VOCO

FARM WHITE

For Interior Farm Buildings

VOCO II is the proven whitewash that is NATURALLY ADHESIVE

Voco II is NOT A LIME whitewash. Voco II will not flake or scale off. Voco II dries white.
