### Save the stover

HESSTON  
StakHand Systems

If you're turning crop trash under, there's a good chance it could be a lot more valuable as feed. And with a HESSTON StakHand® — in your choice of three sizes — you can put up stover in compressed, weather-resistant stacks just as easily as you'd put up hay. Yes, corn wheat milo and other stubble can be turned into pounds of beef or milk gained instead of pounds of crop trash turned under. So see us about StakHand in stover right away. And remember, there's no better way to handle hay than with StakHand.
