

Wool Producers Reminded To Vote In Referendum

Wool producers will vote in a referendum closing November 15 on a proposed new agreement between the American Sheep Producers Council Incorporated and the Administrator, Agricultural Marketing Service.

The agreement provides for the Administrator, ASCS to withhold a part of price support payments to producers on shorn wool and unshorn lambs marketed during the years 1974

through 1977. The payment deductions are authorized by Section 706 of the National Wool Act of 1954, as amended, and will be used by the Council to finance advertising and promotion programs for wool and lambs, similar to those carried out since 1956. A new agreement is necessary so that the Council can continue these programs. Deductions would be at the rate of 1½ cents per pound for shorn

wool marketed and at a comparable rate on unshorn lambs and yearlings.

Anyone may vote who has owned sheep (6 months or older) for at least 30 consecutive days during 1973. Votes may be cast by individuals, corporations, partnerships or legal entities, and qualified cooperative associations may vote for all their eligible member producers, who shall not then otherwise vote in the referendum.

Only one ballot may be cast for two or more producers who are required to apply jointly for a payment under the wool program. Each joint producer must sign the ballot.

Ballots have been mailed to all known wool producers and must be returned to the ASCS office by November 15, 1974.

Any wool producer who did not receive a ballot should contact his county ASCS Office.

Growing corn is one of Dave Gerhart's specialties as he once won

a contest in FFA for high yielding corn plots.

Farming Will Be His

[Continued From Page 1]

raised pheasants for protected areas. In 1974 he won the "corn contest" in the FFA competition for raising a high yielding corn plot that averaged 239.5 bushels of corn per acre. Also for his outstanding record book keeping, Dave won a calf in the County competition.

Dave explained that he had applied for his Keystone Degree and hopes to be an American Farmer Degree

holder also.

When asked what he found most interesting in FFA work, Dave replied that meeting people had been quite interesting to him.

I've been able to go so many places that I would never have been able to go if I hadn't been in FFA, he stated.

"Being able to go the National FFA Convention and to the State FFA Days was reallly interesting."

Dave lives on a farm with his parents, Mr. and Mrs. Lester Gerhart outside of New Providence in the southern end of Lancaster County. And although he realizes that farming may not be the most pleasant job to anyone else's tastes, it suits him just fine.

Determination to take on agriculture as a career, especially in these days, is certainly commendable for a young man of Dave's age.

FOR BEST RESULTS APPLY EARTH-RITE NOW

1. EARTH-RITE will condition your soil for the Spring planting.
2. EARTH-RITE will not leech away, it works to release minerals over the winter.
