## March

[Continued From Page 1]

Chicago on October 8. Dairy farmers and their organizations from all 61 federal milk marketing orders were at the hearing to plead their case for higher prices. They were asking for a \$7.50 floor under the Minnesota-Wisconsin cheese

price. This is the price which determines class 1 milk prices in all federal orders. To get a price for federal order 4 producers, a \$2.78 differential is added to the M-W series figure. The M-W price is currently around \$6.80.

Dr. Paul Hand, chief economist for Interstate Milk Producers Cooperative, pointed out to Lancaster Farming that the farmers in

Chicago were asking for a price that was equal to the price they were receiving last December, before the increased costs of this year were piled on.

The march on Washington is being organized by Interstate, which will be running buses out of the Guernsey Sales Pavilion, Lancaster, at 8:00 a.m. on

Tuesday morning, and out of the Quality Court Motel about half-an-hour later. Hand said the deadline for commenting on the USDA's lack of action is December 4. "Their statement about milk prices is just a recommended action. They don't have to follow that recommendation, and we'll be doing everything we can to see that they don't," Hand said.
