NEW IDEA AT THE FARM SHOW

I can harvest all my crops self-propelled with Uni. And at real savings. I run about 100 acres of corn through my Uni-Sheller; the rest through my Uni-Picker. My soybeans, *well*, I get them with my Uni-Combine. I also do a lot of custom work.

can you?

Oliver Johnson, Grain Farmer

That's how grain farmers feel about Uni. They like what it does. Depending on their needs, it lets them plant and harvest self-propelled, make haylage and silage self-propelled, make ear corn feed— even remove snow— quick and easy— self-propelled.

Uni-System...
CAN DO machines
from the CAN DO people.

If you haven't seen Uni lately, stop in. It's the coming thing and we're trading big.

New Idea's NEW Uni-Combine

No. 717 Uni-Combine

Offers a full 20% more overall capacity than the popular No. 710 Uni-Combine. That's because this rugged machine has more open concave area, longer walkers, a bigger shoe area and a larger grain tank. Handles up to six 30" rows of beans with its new 15-foot grain platform, or four wide rows of corn with its big stripper plate cornhead. And, it does an exceptional cleaning job under all field combining conditions.

have excellent visibility for field work, and all the controls are within easy reach.

This new "717" may be fitted with New Idea's unique Bin-Stretcher, the rear auger unloader that moves grain from the tank to a trailing wagon as you move through the fields. This lets you harvest half-mile long rows of 150 bushel corn—4 rows at a time—down and back, without stopping to unload.

Operator convenience is built-in too. You

It's some machine! See it today.

Uni-System just plain makes more sense.

New Idea's NEW "Hay Thing"

Best there is in heavy, down, tangled hay.

Introducing New Idea's advanced Cut/ditioner—a rugged 7-foot machine that excels in heavy, down and tangled hay. Its non-plug, non-skip operation in any type of hay or forage crop means less downtime and more production. And, it makes a high-quality hay.

Selective conditioning. Knives hit only the stems of plants. This conditions the stems without damaging the leaves.

Try this new Cut/ditioner on your farm.

New Idea's Spreader-Seeder

The Simple Spreading Machine.

New Idea's single spinner spreader-seeder is a simple machine that lets you spread fast and accurately. It has a 690 lb. (8.5 bu.) capacity, and is easy to mount. Gives an effective spread width up to 36 feet. And it's a snap to clean too. Fits category I three-point hitch tractor, and can adapt to category II tractors. Come on in and take a look.

New Idea's Manure Spreaders

10-ton loads mean fewer trips.

There's no need to spread as often as you do. Now you can spread 10 tons per trip—with New Idea's new 365-bushel manure spreader. You won't believe the capacity of this new heavyweight. New Idea's 10-ton spreader is as dependable and rugged as all New Idea spreaders. And it's backed by the Full Year Factory Warranty. The extra heavy-duty conveyor chain is guaranteed for 2 years. Plus the famous New Idea Warranty on Wood. And, this spreader not only has a Belleville spring-type slip clutch that protects the power train—it also features an exclusive "Conveyor Overload Protection System."

Maybe now's the time to trade up to New Idea's new 10-ton—and save yourself some field trips.

We make your job a little easier.
