**ALFALFA-Timothy Blend**  
For High Yields of Quality Hay

ALFALFA 71%

TIMOTHY 29%

This high yielding Hoffman Formula caught on right from the beginning, and is now at the top of the list in popularity.

It's a scientific alfalfa/timothy formulation that helps progressive grassland farmers reach new high levels of high-quality forage on good, fertile, well-drained soil.

All alfalfas are newer, improved types — most exclusive with Hoffman. The strong points of the different strains combine to give you broad disease protection in vigorous, long-lived stands. Timothy strains have been selected for leafiness and yieldability.

This is only one of 14 outstanding hay, grass silage and pasture formulas from Hoffman. See your Hoffman Seed Man for details.
