

# Record Crowd Attends Annual Dairy Conference

Although freezing temperatures and the threat of snow made Tuesday rather bleak, a number of Lancaster County dairymen and their families assembled at the Guernsey Pavilion for the 10th Annual Southeastern Dairy Conference.

"Efficiency - A Must" represented the theme of the conference with speakers emphasizing the need for all types of efficiency in the dairy farming business.

First speaker on the morning's program was Jerry Schaffer, Agricultural Consultant for the Penn-

sylvania Power and Light Company. Schaffer presented a slide program organized in three portions. The first part of Schaffer's program explained the actual making of electrical power by coal and nuclear methods with the second portion emphasizing the different methods of conserving energy on the farm. The final portion explained the company's attempts to utilize solar energy as a means of conserving the natural resources.

Miles R. McCarry, Director of Agricultural

A large number of dairymen attended the 10th Annual Southeastern Dairy Conference. Charles Ackley (left) Adult Education Advisor for the Ephrata Schools served as guest master of ceremonies with the keynote speech being delivered by Eugene C. Meyer, managing editor of Hoard's Dairyman.

Relations for Curtiss Breeding Service was second of the featured speakers for the day.

McCarry also presented a slide program and related the need for sound dairy animals as a means of efficiency in the dairy herd.

"Each year we strive for more production and require more efficiency also," he explained.

"Dairy cows don't have to look like water buffaloes," he stated, "with the use of many sires to correct deficiencies we can have good looking and better producing animals."

The "No-Doubt" dairy analysis program currently being offered by the Red Rose feed company was introduced by Richard Stein the territory manager for John W. Eshleman and Sons.

"More and More, With Less and Less" was the title of Dr. James R. Piotrowski's talk on efficiency at the Dairy Conference. Piotrowski is a Technical Service Veterinarian at the American Cyanamid.

Keynote speaker for the conference was Eugene C. Meyer, Managing Editor of "Hoard's Dairyman", a

dairy magazine published in Wisconsin. Meyer spoke from experience having been involved in dairy herd work as a 4-H member and a college student. Meyer's travels as editor have taken him on many tours of dairy herds along with the work he currently devotes to the

### Indian Pudding

For this early American favorite, heat 3 cups milk until bubbles appear, remove from heat Stir in a small bowl 2/3 cup enriched cornmeal, 1/4 teaspoon salt, one cup unheated milk Pour into scalding hot milk, stirring constantly Bring to boil over moderate heat, stirring constantly—cook 5 minutes or until thickened Beat large egg, stirring hot cornmeal mixture into egg Stir egg mixture back into rest of cornmeal mixture, add 1/2 stick butter, 1/2 cup dark molasses and 1/4 cup sugar Pour into buttered 1 1/2 quart casserole, set into baking pan with hot water within inch from top, bake uncovered in preheated 275 degree oven for about three hours
