MARCH 31 - APRIL 6, 1975

Like an army defeated, the snow hath retreated.

This is the best time to split wood . . . Jesse James killed April 3, 1882 . . . Last quarter of moon April 3 . . . Shad are running now . . . Average length of days for week, 12 hours, 46 minutes . . . Only fools observe April 1 . . . H-bomb lost off Spain recovered April 6, 1966 . . . Disastrous tornadoes last year at this time from Alabama to Ohio . . . If you cannot obey, you cannot command.

Ask the Old Farmer: Where did the expression "By George" come from? G. D., Wilmington, Delaware.

Men used to swear by the name of their king, George, or Godfrey (de Bouillon), a famed crusader. "By Jimminy (Gemini)," "by Jove" come down to us from the

old Romans who ran the show in England, once upon a time. Home Hints You can easily clean pewter by rubbing it briskly with raw cabbage then rinse and dry polish it thoroughly for a heautiful gleam

OLD FARMER'S WEATHER FORECASTS

New England: Coastal rain to start, then rain mixed with snow with 4-6" snow in north; end of week clear and spring-

Greater New York-New Jersey: Partly clear and mild at first, then moderately heavy rain; end of week clearing and warm. Middle Atlantic Coastal: Week begins with light rain in south and heavier rain in north, then mild; clear and warming up

Southeast Coastal-Piedmont: Early week warming up with showers; rain throughout region and colder by week's end. Florida: First part of week clear and warm in central and north but cloudy and warm elsewhere; scattered showers

Upstate & Western N.Y.-Toronto & Montreal: Moderate to heavy rain and mild through midweek; partly sunny and cool latter part with heavy snow by weekend in north, central and west. Greater Ohio Valley: Rain to start, then very warm, end of week fair and warm, then heavy rain in east and much colder

Deep South: Week begins rainy and quite warm; week ends with heavy rain along gulf and central, and showers in north. Chicago & Southern Great Lakes: Thunderstorms with hard rain to start, then partial clearing; snowstorm by weekend.

Fire Season Approaching

The season for forest fires is approaching rapidly, reports the Department of Environmental Resources, Bureau of Forestry. Contrary to many beliefs, fires in Pennsylvania occur more often in the spring and fall months than in the summer. The spring fire season usually extends from mid-March to early May, depending on the weather. Spring is usually the worst of the two with as many as ten to twelve times more fires, occurring than in the fall

Forest fires may start in various ways, such as sparks from a trash fire, careless smoking, children playing

with matches, and railroads. In southeastern Pennsylvania, the number one cause in 1974 was attributed to railroads, followed by incendiary or arson fires, smoking, debris burning, children, equipment use, and campfires. It is important to note that every fire which occurred can be related to human carelessness. In 1974, the statewide total of forest fires amounted to 1.562 as reported to the District offices of the Bureau of Forestry. These fires burned over 8,200 acres and cost the Commonwealth over \$275,000 to extinguish them.

Forest fires destroy

Northern Great Plains-Great Lakes: Snow at first in west, then rain and some snow in central and east; end of week cold

Central Great Plains: Early week considerable rain and mild, cold snap latter part with snowstorm in north and flurries

Texas-Oklahoma: Clear and warm in central to start, then some rain and cooler in south and north; general clearing and warm latter part.

Rocky Mountain Region: Week begins snowy in central and south, then heavy snow in central mountains and showers in north; end of week sunny and mild with showers in north. Southwest Desert: First part of week cool with intermittent

light rain; end of week generally clear and warm. Pacific Northwest: Cloudy and cool to start, then showers in north and partly sunny in south; light rain latter part, then clearing and pleasant.

California: Showery and cool at first, then clearing; rain, moderately heavy at times, by weekend.

timber, soil, recreation. wildlife, and even kill people such as the large Peshtigo, Wisconsin fire in 1871.

Besides burning over one and a quarter million acres of forest land, destroying entire towns and com-munities, 1,500 people perished, five times as many as in the great Chicago fire which began the same day.

ATTENTION CORN GROWERS

ADD SPRAY ADJUVANT TO YOUR ATRAZINE SOLUTION

SPRAY ADJUVANT increases the herbicide's effectiveness on weeds.

SPRAY ADJUVANT Complies with Federal Regulations, Approved by FOOD & DRUG **ADMINISTRATION**

SPRAY ADJUVANT added to Atrazine solution. COSTS LESS Than using Atrazine alone. YES! COSTS LESS.

people believe that hedgehog blood is good for

To save money and improve milk production

Feed Dairy Special 40XX

The key to efficiency in any dairy feeding program is getting maximum performance out of homegrown grains and roughages while keeping out-ofpocket feed costs down. That's why Vigortone developed Dairy Special 40XX for use in legume hay or haylage rations.

This potent pre-mix contains abundant phosphorus to balance off the high calcium content of these roughages and provides proper levels of other major minerals, trace minerals and vitamins.

Legume programs are well balanced with Dairy Special 40XX, and the need for supplemental protein is much less. Best of all, your cows soon respond to their full bred-in potential to produce

Dairy Special 50XX for the dry cow

Proper nutrition for the dry cow is just as important as for the producing cow. It's during this period that the stage is set for the level of production she will have throughout the lactation period. Vigortone's Dairy Special 50XX is properly suited to fortify high roughage rations of dry cows and keep them in excellent condition right up to freshening.

See your Vigortone dealer soon

Your Vigortone dealer has several products and programs to promote better milk production and help you save money. See him soon, or return the coupon below.
