

Solanco Youth Enjoys Dairying

(Continued from Page 1)
 plained.
 "By farming you are your own boss and make the

decisions."
 "It is also one way to be close to nature."
 Along with his outstanding

work experience, Jeff has been active in FFA serving this year as president of the Solanco Chapter which presently contains 106 members. Jeff has also served as secretary for the County FFA and has been part of numerous committees.

Along with his work experience project, Jeff has also taken projects in steer fattening and swine breeding and fattening.

Along with his dairy work experience, Jeff has also taken swine and steer fattening projects. Jeff is

shown with one of his feeder pigs that he is currently raising.

HORSE SALE

SATURDAY, MAY 31, 1975
 10:30 A.M.

at the
DANVILLE LIVESTOCK MARKET
 Old Rt. 11, Danville, PA

RIDING, DRIVING & WORK HORSES

THERE WILL ALSO BE TACK FOR SALE.

There will be 2 loads of Western Horses.

ANYONE WISHING TO CONSIGN HORSES, PLEASE CONTACT ONE OF THE OWNERS.

We are also equipped to serve you with modern equipment in all your areas of crop spraying

One of Jeff's projects was to build a pen and yard for his swine. The youth has shown his swine at the Solanco fair usually placing high in the contest and last year exhibited the grand champion. Jeff has also shown his steer in FFA competitions throughout the county.

Land judging is one of Jeff's favorite activities and his knowledge has been quite evident by his top ranking in the state competition last year. Jeff went on to judge in Oklahoma at the National

Land Judging event representing Pennsylvania FFA.

The Solanco FFA'er has also had numerous project book awards and received the Henry N. Wenger award for this outstanding FFA work at the recent Solanco banquet.

Jeff also received his Keystone Degree during the Mid-Winter FFA Convention held in Harrisburg in conjunction with the Farm Show.

Along with his FFA work, Jeff is also a member of the

Calvary Independent Church and the Solanco Basketball team. He also enjoys playing softball on various area teams.

Although Jeff would like to have his own farm someday, the young man plans to continue working on the Trimble farm following his graduation in June.

"Someday I'd like to have my own farm but until I can afford it, I'll continue working and gaining experience."

Jeff resides with his mother, Mrs. Joanne Glackin at Quarryville R3.

IM-PRUV-ALL FERMENTABLE FEED

Would you like to make more money from the ALFALFA you grow?

WHAT CAN BE THE ADVANTAGES OF HARVESTING AND STORING ALFALFA AS IM-PRUV-ALL ALFALFA HAYLAGE OVER BALED HAY ON AN ACRE BASIS?

These projections are based on figures from U.S.D.A., "Feeds and Feeding" by Morrison, "Applied Animal Nutrition" by Crampton and Harris, Nutritional Bulletins from N.R.C., and Triple S Lab, Inc. Results will obviously vary in individual cases. Figures for pounds of meat and milk per acre assume that the alfalfa is being fed in a balanced ration.

	80% Moisture Im-Pruv-All Alfalfa Silage	60% Moisture Im-Pruv-All Alfalfa Haylage	40% Moisture Alfalfa Haylage	Baled Hay
Lbs. Dry Matter Harvested per acre	10,000	10,000	10,000	10,000
Field and Handling Losses	0	6%	13%	22.4%
Lbs. Dry Matter Stored	10,000	9,400	8,700	7,760
Storage Losses	12%	7%*	7%*	3.6%*
Lbs. Dry Matter to Feed	8,800	8,740	8,090	7,480
Feeding Losses	0	0	0	5%
Lbs. Dry Matter Consumed	8,800	8,740	8,090	7,100
Lbs. Protein Consumed per acre	18.2%	18.6%	18.0%	16.9%
Lbs. TDN Consumed per acre	61%	57%	54%	55%
Lbs. Beef per acre	910	655	532	518
Value of Beef at 25¢/lb.	\$227.50	\$163.55	\$133.00	\$129.50
Lbs. Milk per acre	10,395	9,130	7,645	7,330
Value of Milk @ \$5.00/cwt.	\$519.75	\$456.50	\$382.25	\$366.50

IM-PRUV-ALL IS A SCIENTIFIC COMBINATION OF INGREDIENTS THAT AID NATURE IN ACHIEVING AN EFFICIENT, RAPID FERMENTATION OF FERMENTED FEEDS.

IM-PRUV-ALL HAS BEEN DESIGNED TO IMPROVE FERMENTABLE FEEDS. OVER ONE MILLION TONS OF VARIOUS SILAGES WERE FERMENTED WITH IM-PRUV-ALL DURING ITS DEVELOPMENT PERIOD.

The following specific IM-PRUV-ALL formulas have been developed to afford maximum improvement of different fermented feeds:

- #101 Corn and Sorghum
- #H44 Haylage
- #G55 Grain
- #202 Legumes
- #BT66 Beet Tops
- #303 Grasses
- #DH77 Dry Hay

In addition to improving standard silages such as corn, IM-PRUV-ALL makes it possible to direct cut and successfully ensile alfalfa, clover, sudan, oats, wheat, sudex, pasture grasses, beet tops, and others.

Rye silage makes a very good feed. If cut and ensiled at the proper stage of maturity, 2 lbs. of rye silage on a dry matter basis can have as much protein as 1 lb. of soybean meal.

Water Hardness
 Water that contains "hardness" minerals, calcium and magnesium, is known as hard water. If are uncertain that your water is hard, check for a ring around the tub or sink when the water is drained and a crusty appearance on plumbing fixtures. According to Extension specialists at The Pennsylvania State University, these are all signs of hard water. Clothes washed in hard water may look gray or dull and may become rather stiff. To prevent these problems, add some extra detergent to the wash water. Detergents contain special ingredients that tie-up the hardness minerals so that the rest of the detergent ingredients can then work more effectively.
