HELPS REDUCE HUNGRY MOMENTS

These New York doctors discovered a food adjunct called "MODEL-ETTS."

"Model-etts" does remarkable things. It helps you cut down your caloric intake by a natural automatic curbing of the appetite and of the desire for foods, resulting automatically in a reduced intake of food.

Before "Model-etts" was offered to you, it was tested clinically by the doctors on a large group of non-glandular overweight men and women.

The doctors carefully checked results, and here is what they found:

1. Weight losses of 6 to 20 pounds without any ill effects whatsoever.
2. 96% of the men and women who used "Model-etts" lost weight.

"Model-etts" is absolutely safe. It is a food adjunct - not a drug.

So, start today to shed those unwanted pounds and inches. If your condition is glandular or organic, see your doctor. "Model-etts" may help you stay on the diet your doctor recommends. Ask him about it.

You can get a full month's supply of "Model-etts" for \$3.00 on money back guarantee. In clinical tests, "Model-etts" was 96% successful. "Model-etts" may not be 100% successful in all cases, but you take no risk in trying "Model-etts" on our Money Back Guarantee.

Come to General Nutrition to get "MODEL-ETTS." The sooner you start, the sooner you may have the loss of weight you yearn for.

Sounds too good to be true, but it is true!

How Model-etts Curbs Your Appetite
