

NOW is the time to PLAN, **Budget and Select YOUR STORAGE, DRYING and HANDLING SYSTEM.**

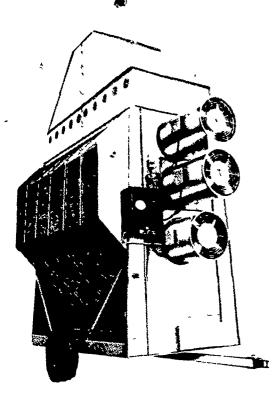

CHICAGO STORAGE & DRYING BINS

- Chicago Bins were first with the features that are now the standard of the industry in modern mechanized storage and drying systems.
- Largest size selection of storage and drying bins in the industry. 15' to 48' diameters. Sidewall heights from 10'8" to 26'8".
- · Heavy duty corrugated wall sheets. Steep pitch clear-span super-rib roofs, galvanized steel used throughout. Grade # 5 hardened hardware used throughout.

• A Bin-Dryer combination by a single manufacturer assures most efficient. economical answer to your grain conditioning needs. Famous Chicago Fans and Heaters designed to work best with Chicago Bins. Chicago designed controls for all drying applications.

 Full line of drying engineered accessories. Aerodynamically designed transitions. Free air flow perforated corrugated floors. Simple rugged steel floor supports for strength and minimum obstruction of air flow.

CONTINUOUS FLOW **PORTABLE GRAIN DRYERS**

- Farm Systems Corporation Continuous Flow Portable Grain Dryers offer big performance at a price you can afford. In fact, most of the features round on thesedryers aren't available on competitive dryers at any cost.
- Specially designed burners and vane axial fans produce just the right balance of heat and CFM per bushel. This optimum balance of CFM (AIR) and evenly distributed heat (TEMPERATURE) coupled with automatic control of the grain flowing through the dryer (TIME) gives you consistent moisture removal at the lowest possible fuel input (COST) per bushel.

- FULLY AUTOMATED -**DRYING CAPACITY UP TO 7,500 BUSHELS PER DAY ON MODEL 250 AND DRYING CAPACITY UP TO 4,000 BUSHELS PER** DAY ON MODEL 125 DRY YOUR GRAIN FOR AS LOW AS 4 PER BUSHEL:
