Boot Race
1 - Kim Bernhardt; 2 - Terri Mummau; 3 - Robin Tshudy; 4 - Denise Travitz.

Holding on to a dollar is hard enough these days without doing it for sport. These 4-Hers tried hard to

keep a dollar bill under their knees without letting it drop, while going through three different gaits.

Candy Borry, leader for the Saddle Cinches, gives young Lorri Hurst some pointers on showing her pony.

the event. The results of the contest are as follows.

Senior Grooming and Showmanship

1 - Sue Cassel; 2 - Regina Kicera; 3 - Deb Brandt; 4 - Barb Helm.

HESSTON

When the crew is you

HESSTON StakHand 10

Even in a one-man operation, Hesston makes it possible to include a moderate size haying program with the HESSTON StakHand® 10. Yes, the StakHand 10 will get your hay up and out of the weather at the hourly rate of four to six tons. And the stacks have self-storing, weather-resistant capabilities. Couple the StakHand with a choice of StakMovers and you can put up hay one day, they move it later on. See us for all the benefits of a StakHand right away. We can even show you how the Stak-Hand 10 system lends itself to feeding programs.

Swing it left or right

HESSTON 1014 WINDROWER

Hydrostatic header drive and center placement of the arched tongue on the header allow infinite positioning of the new center pivot Hydro Swing® 1014. Yes, Hesston's 1014 can cut on either side of the tractor to let you windrow in either direction—up and down the field. Or, the swing cylinder lets you position the header directly behind the tractor to clear gates. Available in widths of 12' or 14', the headers give trouble-free operation even in dense crops. And 57" conditioner rolls gently fluff hay into well-formed windrows. See us about the new 1014 soon. It's an ideal way to open your fields to your choice of HESSTON StakHand® Automatic Hay Handling Systems.
