

# THE OLD FARMER'S ALMANAC

SEPT. 8-14, 1975

Morning dues and some fall hues.

Most children are going back to school now, so drive carefully . . . Everyone's making apple cider now . . . First quarter of the moon Sept. 12 . . . Shortest twilights this week . . . Average length of days for week, 12 hours, 43 minutes . . . Air mail from NYC to San Francisco took four days in 1920 . . . Russians hit the moon Sept. 12, 1959 . . . Being unhappy in this season is almost like treason.

when they are stowed away in the daytime, touch off a few sulphur candles.

Home Hint: One of the best ways to remove rust from outside metal fixtures is with steel wool dipped in kerosene. Follow by polishing with liquid wax. Riddle answer: A coat of paint.

## New York Dressed Meats

September 4  
 Daily distributive - less than carlot meat trade.  
 Compared with Wednesday: prices mostly weak for beef, veal, calf & lamb. Pork no better than steady for all listed cuts.

Pork sellers feel edge is off as far as local market is concerned & retailers less aggressive than early. Lamb chucks accumulated in spots while outlet for beef, veal & calf only fair at best.

One to the Other  
 What did one eye say to the other? "There's something between us that smells." What did one toe say to the other? "Don't look now but there's a heel following us." Guess what you do if you smash your toe. Call a tow truck! And certainly you know why your cat joined the Red Cross. It wanted to be a first aid kit.

Real communication is impossible without listening.

## will you be ready?

harvest time is just around the corner — are you ready for it? Will your present drying facilities or arrangements allow you to harvest at top speed? Can your grain handling equipment keep up? And, to protect yourself from selling at what may be the lowest prices of the year will you have the necessary storage capacity for holding?

There's still time to get the equipment and storage you need by visiting your modern farm systems center. The experienced people there can provide you with the information you need in planning and financing your grain drying, storage, and handling needs. Also remember the 10% investment credit available to you. But, time is running short — act now and be assured of getting the equipment you need installed for the coming harvest.
