ACOUSTA CAB
MILWAUKEE, Wis. - The ACOUSTA cab, proven to be the quietest farm tractor cab built in the industry, is described in a new brochure from the Agricultural

Equipment Divisions of the Allis-Chalmers Corp. Recent results of an independent, nationally recognized test showed that the ACOUSTA cab, mounted on Allis-Chalmers Model

7040 and 7060 farm tractors, achieved 78.0 and 78.5 dBA ratings, respectively, at maximum power application and with pressurizer fans at full volume. These record ratings surpass the previous industry low level of 79.5 dBA held by the Allis-Chalmers Models 7030 and 7050.

The literature details the designs and techniques used to achieve the low decibel ratings, including a specially designed engine cylinder block and a thicker front mounting plate to reduce noise and structural vibrations, non-parallel surfaces to prevent sound reverberation, cab isolation mounts to eliminate metal to metal contact, flexible control cables instead of rod controls, and thick insulation and acoustical foam.

Also described in the literature are the comfort

and convenience aspects of the ACOUSTA cab. For a copy of the ACOUSTA cab literature, No. AED 418-7505, contact the Allis-Chalmers Corp., Agricultural Equipment Divisions, Box 512, Milwaukee, Wis. 53201.

New Idea's Superpickers

BIG CAPACITY

A Superpicker is built to tackle any field, any yield — the biggest or the smallest — any condition of corn whether it's ten feet tall or storm-blown, down and tangled.

If you've ever owned one, you know how Superpickers like to be left alone. How they're about as trouble-free as a piece of machinery can be.

Fact is, more farmers buy New Idea Superpickers than all other makes combined!

Superpicker — harvests your corn fast.

See us today. Chances are your old picker will make the down payment.

We make your job a little easier
