

## Religious programs scheduled

A Gospel Concert and Fellowship Banquet are scheduled for northeastern Lancaster County on October 25 and November 2, respectively. Both events are being sponsored by the Bainbridge Gospel Promotion. The Gospel Concert will be held at Elizabethtown High School, beginning at 7:30 p.m., October 25 and will feature groups from North Carolina, Virginia and Pennsylvania. They are The Foundations, The Stewards and The Gospel Chorus. The Fellowship Banquet will be held at

Elizabethtown Banquet Hall. Scheduled to begin at 6:30 p.m., the banquet will feature The Foundations and Gospel from Harrisburg, Va. and The Foundations from Lancaster, Pa. For tickets to either event, contact the promoter at 745-1111.

The A Classified Ad It Pays!

best by every test...

**CUSTOM BARN AND FENCING**  
Feed-through Fencing, Saddle Gates and Latches meet the test for the Made Grove Farms, Nazareth, Pa. Gates are strong and "batter" easily. They will stay where you want them.

**MARTIN FREE STALLS**  
provide features that increase the advantages of Free Stall Housing for Rainbow Farms, Walnutport, Pa. "Our stalls are exactly the right length and cows cannot bend them."

**MARTIN'S NEW CALF STALLS**  
make it impossible for one calf to spread disease to any other calves. A sanitary environment is so easy and convenient—with removable floors and one-piece steel sidewalls.

WRITE OR CALL FOR INFORMATION WITH YOUR SPECIFIC REQUIREMENTS

**Martin** makes Free Stall Housing installations complete with the practical features that dairymen prefer for greater strength and long-lasting, dependable service.

Tom Folker (right) New Holland is shown with the champion market hog recently exhibited at the New Holland Fair. The Duroc gilt was bred on the

Folker farm. Abe Diffenbach (left) purchased the animal for \$1.26 per pound and the pig was exhibited by Brian McCauley, Kinzers.

## Maryland reports record corn harvest

Spotlighting after Midnight Unlawful

COLLEGE PARK, Md. — An October 1 survey of Maryland farms, conducted by the Maryland-Delaware Crop Reporting Service, here indicates the state's record corn crop for 1975 is expected to reach 48.4 million bushels, says Maryland Secretary of Agriculture Young D. Blance.

This year's anticipated record harvest of 88 bushels per acre will be one bushel per acre more than estimated a month earlier and four bushels above last year's per acre yield.

Blance states that if the record corn production should be eight percent above last year and 14 percent higher than in 1973, as the Crop Reporting Service survey suggests, there is even more reason for

stimulating export sales of grain.

As of October 6, corn harvesting for grain was 50 percent completed, compared with 32 percent at the same time last year and with an annual average completion of 43 percent.

Corn raised in Maryland, for the most part, is used for livestock and poultry feeds.

Farm production surveys conducted by the Crop Reporting Service, a cooperative effort of the USDA and the state agriculture agency, as of October 1 showed the following:

Tobacco production at 24.7 million pounds, the second smallest crop since 1945.

Apple production at 76.0 million pounds, 11 million more than a year ago.

Sweet potato production at

The Game Commission reminds all Pennsylvanians that the practice of spotlighting after midnight is unlawful.

Although the law has been in effect for more than seven years, some persons apparently are still not aware of the restriction, or perhaps they forget to check their watches.

Spotlighting of deer at night is an activity in which many persons, sportsmen as well as non-hunters, engage, especially during the fall months. But all are reminded that while the practice is permissible up until midnight, it is illegal to do so between midnight and sunrise.

326,000 hundredweight, 11 percent more than the 1974 harvest.

# IM-PRUV-ALL

Make

## HI MOISTURE GRAIN

in a top unloading

## CONCRETE OR WOOD SILO

with

## IM-PRUV-ALL G55

IM-PRUV-ALL G55 compound contains no harmful chemicals. It helps nature make a more complete ferment faster.

Hi Moisture grains give you more TDN per acre, the soft grains digest more completely, no mold problems, no grain drying expense and more profit for you.

For more information contact your **IM-PRUV-ALL** Dealer.
