Youth captures ag award

(Continued from Page 1)
Weaver's a Massey-Ferguson dealership near New Holland.

Gary, who has demonstrated outstanding abilities in mechanical work, is serving the dealership as a sales and service employee. The youth has been responsible for setting up equipment, demonstrating machinery to buyers and even constructing equipment as it comes from the factory. Gary's work at M. M. Weaver's and also on two dairy farms, helped the young man to be selected for the award, in the work experience category.

Gary wasn't sure that he'd won the award until he was notified earlier this month. "I was happy when I received the letter because I knew there were some areas that I hadn't done a lot of work in, but I kept hoping."

During his high school career, Gary served the Grassland FFA Chapter as student advisor and also served as chairman of the earnings and savings committee, which involved quite a lot of attention.

The young man also participated on the parliamentary procedure team, the livestock and poultry judging teams for the chapter.

Gary received the Keystone Farming Degree in 1972 during his senior year and was selected as the North Atlantic Regional Proficiency Winner for work experience the following summer. Gary also garnered numerous awards for his record books which received several gold medals. While attending Garden Spot High School, Gary also served on various FFA committees which ranged from citrus sales to planning the annual banquet. While the youth was

pleased that he had been chosen for the award, the honor did not interrupt him from going ahead with his work. Gary recently traveled to Ohio and Canada to pick up machinery for farmers served by Weaver's and has also been busy demonstrating equipment and helping to service the machinery for area farmers.

There's been a lot of talk about the new Individual Retirement Account

When it's finally time to retire, there's a chance your social security check alone won't be enough. So if you're not covered by any pension plan except social security, you should know about our new Individual Retirement Account.

Basically this new account allows you to deposit as much as 15% of your income, up to \$1500 per year, into a retirement savings plan. The deposits made during the calendar year are deductible from your gross income. This means a tax savings for you.

EVEN THE EARNINGS ARE TAX-FREE UNTIL YOU RETIRE

We'll help you choose the retirement savings plan best suited for your needs. A plan that will pay the maximum interest permitted by law. And, if you would like to deposit on a regular basis, when the balance in your IRA savings account reaches \$500 you may transfer the funds into a Farmers First Certificate of Deposit. This will increase your earnings toward retirement

Remember, the money you put away and the earnings on it won't be taxable until you retire.* And by then, chances are you'll be in a much lower tax-bracket.

To get the facts and see how you can save taxes, talk to your personal banker at Farmers First today.
