**State Joins 500,000 Club**

Pennsylvania has become the third state in the nation, following New York and California, to join the National Rifle Association's 500,000 Club by training over half a million persons in its hunter education program. The Pennsylvania Game Commission's hunter education program had about 150,000 graduates while being presented on a

voluntary basis prior to 1969. In 1969, it became mandatory for all first-time hunters under the age of 16 to complete a hunter education course before being eligible to purchase a hunting license.

In the past six years, about 350,000 youngsters have completed the course in Pennsylvania.

**THANK YOU**

Oct. 21, 1974, I started my first change of employment in 13 years. I had reservations about the change. These reservations were quickly lost as I met and dealt with some of the finest business people I have ever met.

Starting my second year in the area is done with no reservations. With less left hand turns on right hand roads to find some of your places, I'm sure I will meet and deal with more fine people and continue the relationships started during 1975.
