THE PENNSYLVANIA POULTRY FEDERATION

One salesgirl in a candy store always had customers lined up waiting while other salesgirls stood around with nothing to do. The owner of the store noted her popularity and asked for her secret. "It's easy," she said. "The other girls scoop up more than a pound of candy and then start taking away. I always scoop up less than a pound and then add to it."

Few things in life are as important as the pride of craftsmanship, at whatever level it may occur — the pride in a job well done, the feeling of having a horse that one can ride.

Brooke Allen

I believe that every right implies a responsibility; every opportunity, an obligation; every possession, a duty.

John D. Rockefeller, Jr.

Wouldn't it be nice to be sure of anything as some people are of everything?

It's much easier to be critical than to be correct.

DER to survey pesticide users

HARRISBURG - The Department of Environmental Resources will conduct a survey of pesticide users to evaluate the extent to which they generate related waste materials and to determine if any of the users have surplus chemicals on hand now which will require disposal.

William Appgar, Pesticides Project Coordinator in DER's Bureau of Community Environmental Control, said many pesticides frequently no longer can be used as pesticides due to various factors, including En-

vironmental Protection Agency regulatory action, lack of need as anticipated at the time of purchase and disasters such as fire and flood.

Appgar said DER is

working with the Department of Agriculture to develop a plan to resolve potential environmental problems which may involve these hazardous waste materials.

Anyone having a problem with pesticide waste disposal is asked to contact the DER Pesticides Project at (717) 783-8810 or contact any Community Environmental Control Bureau county office.
