

AGWAY

AGWAY SPREADS THE GOOD WORD!

Not one . . . but two discounts add up to one of the greatest price reductions ever offered by Agway for fall fertilizer delivery!

Early Take discount

- ammoniated grades, 12¢ per unit
- blends, 0.6¢ per pound of plant food

For example popular 10-20-20 ammoniated analysis equals 50 units of plant food per ton 50 x 12¢ equals Early Take savings of \$6.00 per ton.

Early Pay discount

4.5% when you pay in November. Choose the Early Pay discount

and you can add another savings that can equal—or exceed—the unit discount, depending upon the purchase price and analysis.

Buy with price protection

Order now and Agway will protect you against any possible price declines. If Agway prices are lower next spring, Agway will rebate the difference. Here are the ground rules

All price comparisons are to be made at the original point of purchase and discounts must be taken into account. All purchases of ammoniated and blend fertilizers during the period from September 30, 1975 through January 17, 1976 will be entitled to price protection through May 1, 1976.

Soil store or dry store

It makes good sense to spread your phosphorus and potash now. You free up time, labor and equipment for important planting work next spring.

Or store your fertilizer under cover and be sure of your planting needs next spring. Remember, fertilizer stored on your farm from November 1, 1975 through June 30, 1976 will be replaced if loss is due to fire or to water used in fighting fire.
