Nineteen states represented in Register of Merit Hereford Show

Fertilizer group to meet

KANSAS CITY, Mo. - It was an enthusiastic audience of some 700 people who gathered here last week for Hereford activities during the American Royal as breeders came from all over the United States for the annual meeting of the American Hereford Association, the convention of the American Junior Hereford Association, the Register of Merit Hereford Show, and other activities. Enthusiasm abounded for the whiteface breed, and the activities were climaxed with the ROM show in which 190-head were shown, representing 57 owners from 19 states.

The 190-head shown was above the numbers led out in comparison with the last few years, but was well under the all-time record number shown at the 1948 American Royal when 572-head paraded before the judges. Most ringside observers felt the quality of the classes was the strongest in many years, and the judge, Dr. Miles McKee, Kansas State University, Manhattan, continually complemented the breeders on the quality entries with the strength running deep in all classes.

Indian Mound Farm, New Harmony, In., came on strong in the stiff competition to win both grand champion bull and grand champion female honors. The winning bull came from the spring yearling class and weighed 1,465 pounds with a weight per day of age of 2.46 pounds. He was named D4 Advance L1 4049. He was sired by the Super Register of Merit sire, RC Mischief D4, and out of a Line One bred cow.

In female competition, the Indian Mound entry taking the grand champion banner was LHR L1 Dominette 451, sired by LHR Domino 060. She was bred by, and is owned with, Lund Hereford Ranch, Reserve, Mt. She came from the spring yearling class and was also named senior champion.

The reserve grand champion bull went to Arizona exhibitors, Warbonnet Herefords and Gene "Sparky" Sparks, Jr. He was GS Mill Tiberius 32. This bull was out of young Sparks' show heifer that was junior champion and first place winner in the 1973 Arizona National Show in Phoenix.

For reserve grand female honors, Judge McKee went

to the OXO L1 Miss Adv 93, shown by OXO Hereford Ranches, Ridgeway, Co. This heifer from the senior calf class had also been named junior champion.

The junior champion bull was also from the Indian Mound herd, D4 Advance 4101, from the senior calf class. B & C Cattle Co., Miami, Tx., had the reserve junior champion bull on B&C L1 Adv Dom 118.

Claiming the reserve champion female award was GK Big N Miss 568F, for Glenkirk Farms, Maysville, Mo. The reserve junior female award went to Oklahoma State University on O Progress Lass A487.

In group class judging, B & C Cattle Co., won the get-of-sire class on the Get of WCF L1 Dom 6313; Doctor Herefords, McLean, Tx., won with their pair-of-calves and Indian Mound Farm won with their two-bulls, pair-of-yearlings and best-six-head.

PEORIA, Ill. - Three nationally-known speakers are slated to appear for a record turnout at the 21st. Annual Convention of the National Fertilizer Solutions Association (NFSA) which is being held in Denver, Colorado, on December 1-4. Assistant U.S. Secretary of Agriculture Richard L. Feltner will address the convention's opening breakfast on December 2, Dr. Norman Vincent Peale will be the guest speaker at a noon luncheon the following day, and Chris Schenkel will address the closing luncheon Thursday noon.

According to Richard Gilliland, executive director of the NFSA, their 1975 Denver Convention will be the largest in their association's history. "The way registrations have been pouring in, we expect some 3,000 to attend the four-day convention," he said.

The NFSA is an international organization headquartered in Peoria, Illinois, and represents more than 1,060 member companies and independent liquid fertilizer dealers in the U.S., Canada, Mexico, South America and Europe. Members also include major oil, chemical and additive companies, plus equipment manufacturers and agriculture laboratories.

There's been a lot of talk about the new Individual Retirement Account

When it's finally time to retire, there's a chance your social security check alone won't be enough. So if you're not covered by any pension plan except social security, you should know about our new Individual Retirement Account.

EVEN THE EARNINGS ARE TAX-FREE UNTIL YOU RETIRE

We'll help you choose the retirement savings plan best suited for your needs. A plan that will pay the maximum interest permitted by law. And, if you would like to deposit on a regular basis, when the balance in your IRA savings account reaches \$500 you may transfer the funds into a Farmers First Certificate of Deposit. This will increase your earnings toward retirement.

Basically this new account allows you to deposit as much as 15% of your income, up to \$1500 per year, into a retirement savings plan. The deposits made during the calendar year are deductible from your gross income. This means a tax savings for you.

Remember, the money you put away and the earnings on it won't be taxable until you retire.* And by then, chances are you'll be in a much lower tax-bracket.

To get the facts and see how you can save taxes, talk to your personal banker at Farmers First today.
