

# Grangers adopt 75 resolutions

[Continued from Page 1]  
practices of National Forest Lands  
-subsidies designed to encourage a bigger and better re-refining oil industry  
-binding arbitration when negotiations between

teacher organizations and school boards reach an impasse  
-joint study of textbooks and curriculum by parent-teacher committees  
-vocational educating programs  
-National Health Program

based on a partnership between government and the private insurance sector  
-legislation for preventive medical programs  
-collection of countervailing tariffs on all imported dairy products  
-expansion of foreign

agricultural trade  
-reduction of foreign aid, foreign military spending and close scrutiny of interest rates covering financial assistance to other nations  
-extension of Domestic International Sales Corporation (DISC)  
-open committee hearings on salaries of Congressmen  
-elimination of federal regions and returning to federal-state concept  
-voluntary prayer in all public schools and assemblies  
-legislation to tighten eligibility criteria and simplify income determination which would correct abuses and restore Food Stamp Program to its original intent  
-Congressional reappraisal of federal agencies with a view to decreasing the size of the federal government  
-heavy mandatory punishment, without recourse of parole until the minimum sentence has been served, for anyone using a lethal weapon in the commission of any crime covered by federal statutes  
-transfer of the Food

Stamp Program from USDA to Dept of Health, Education and Welfare

-following changes in the Social Security Act raising to \$4,000 the amount that can be earned in a year without having any benefits withheld, no reduction in survivor annuity, giving the widower the same benefits as widow, no reduction in benefits by reason of marriage, maximum base to be raised rather than the percentage rate on contributions  
-exemption allowance for individuals on federal income tax returns be raised to \$1,000 and the percentage standard deduction to 20 percent  
-standardized simplified personal income tax form  
-President's proposal to reduce taxes by \$48 billion coupled with a cut of equal amount in federal spending  
-completion of the Federal Interstate Highway System  
-extension of Federal Highway Trust Fund  
-federal financial aid to repair and replace railroad plants and equipment and to retain service needed  
-a Congressional investigation be conducted into the operating and economic

policies of the postal system  
-minimum federal standards for state no fault insurance legislation

-establishment of a national conference on agricultural transportation  
The Grange opposes  
-proposals to abolish, emasculate or add to diversion from the Highway Trust Fund

-creation of a general "Transportation Trust Fund" for all modes of transportation in which highway user and other revenues would be commingled

-wearing ear phones while driving a motor vehicle  
-additional taxes on petroleum products which would add to production costs for agriculture

-tax-loss farming or using income tax write-offs from farming to reduce tax earnings in non-farm business or professions

-deficit spending  
-amnesty in any degree for draft dodgers

-granting food stamps to workers away from their jobs except when such unemployment comes through no choice of their own

-enactment of any laws which would jeopardize the legal right of U.S. citizens to keep and bear arms

-creation of the Agency for Consumer Protection  
-secondary boycotts

-passage of any legislation or regulations to require an employer to determine the citizenship of his employees  
-creation of a closed shop or the forced unionization of public employees against their free choice

-union organization of our armed forces  
-strikes by federal employees or similar actions that disrupt essential services

-state of federal aid given to striking employees  
-increased importation of beef from foreign markets and recommends quotas not be exceeded

-relinquishing the Panama Canal Zone to Panama or any other foreign country

-legislation that would create a government controlled agriculture export agency

-massive busing of school children for any purpose other than to achieve quality education

-massive compulsory school for children 3-5 years old

-direct and implied advertising of alcoholic beverages on radio and television

-legalizing the use of marijuana and the liberalizing of penalties for the possession or sale of the same

-any interpretation by the Environmental Protection Agency which extends into normal farming activities such as plowing, seeding, tillage operations, etc.

-federal land use legislation that would take land use decisions out of the hands of local and state governments

-establishment of any roadless or wilderness areas that would remove from production: land capable of producing commercial timber and productive farm and grazing land

-the creation of buffer zones around cities where no building would be permitted as an illogical and unneeded amendment to the Clean Air Act

**Feterl** has a better way to feed roughage.

**Rufeeder**

Designed for all types of roughage. It is ideal for silage, baled hay, cubed hay, ground hay, field green chopping and chaff. The new RUFEEDEE is 20 feet long, and on a free choice basis can handle approximately 70 head. ●Feed capacity—375 cubic feet ●Mounted on special low profile heavy-duty gear. Made of quality steel and treated plywood.

**Cornell Barn Cleaner • Roll-A-Bout Feeder  
Van Dale Silo Unloader & Cattle Feeders**

**HERMAN L. BASHORE**  
R.D. 2, Annville, Pa. 17003 865-4053

## THE SENTINEL

### Round-the-clock guardian of stored milk temperature

If you depend upon your milk check for a living, protect that income by insuring milk quality.

The least expensive, single-payment insurance obtainable is the Sentinel — the heavy-duty, 10-inch recorder which charts round-the-clock temperature of your milk-cooling or holding tank.

Assure yourself — and your processor — that proper milk temperature is always maintained.

Keep a permanent log of compressor operation and tank cooling or pre-cooling efficiency, from first filling to pickup.

Cleaning temperatures — increasingly questioned by sanitarians — are recorded on the same chart.

At little added cost, the Sentinel is available with provision for actuating an alarm or warning light if milk holding temperature rises above pre-set level.

Remember — if it prevents the loss of only one tank of milk, the Sentinel has paid its own way.

See your dealer about the Sentinel — or drop us a line
