NORTHCO HOG SYSTEMS

Properly managed Northco systems produce top quality hogs profitably with a minimum of labor. All components of a Northco confinement system are designed to deliver maximum returns on the investment you put into swine production.

Farrowing

Northco Farrowing systems provide complete control over sow and litter. All crates are ruggedly constructed to deliver years of service. Special pig brooders target "zone heat" into the little pig area

Finishing

Feed delivery is automatic yet the amount for each pen can be regulated separately. Pen partitions are sturdy and designed to aid in cleanliness. Northco's ventilation system draws fresh air from sidewall intakes, while exhausting warm humid air through roof exhaust ventilation units

INDIVIDUAL COMPONENTS

Superior design and engineering quality can be found in each Northco equipment component Available separately

Farrowing Crate

Brooder

Pipe Gate

Self Feeder
