

Kissing companions

Lord Halifax, a former foreign secretary of Great Britain, once shared a railway compartment with two prim-looking spinsters. A few moments before reaching his destination the train passed through a tunnel. In the utter darkness Halifax kissed the back of his hand noisily several times. When the train drew into the station, he rose, lifted his hat, and in a gentlemanly way said:

"May I thank which ever

one of you two ladies I am indebted to for the charming incident in the tunnel." He then beat a hasty retreat, leaving the two ladies glaring at each other.

xxx
"Criticism," said Ralph Waldo Emerson, "should not be querulous and wasting, all knife and root-puller, but guiding, instructive, inspiring — a south wind, not an east wind."

Howard Helmer "The Omelet King" will be present at the Pa. State Farm Show this week as a guest of the Pa. Poultry Federation. Helmer will try to break his record of preparing 240 omelets in 1 hour. Governor Milton

Shapp is scheduled to be the Honorary Timekeeper for the event which will be staged on Wednesday, Jan. 7.

World milk output up

Milk output in the 38 major producing countries is seen at 385.4 million metric tons for 1975. That's up nearly one percent from the 1974 total, nine percent above the 1967-71 average.

The U.S.S.R. remained the world leader with a 92 million ton total that was up two-tenths of one percent from a year earlier. U.S. output is estimated at 52.3 million tons, about the same as a year ago.

Among the other leaders: France's total, at 30.65 million tons, virtually unchanged from last year; India's total, at 24.5 million tons, up 3.4 percent; West Germany's, at 21.36 million tons, off fractionally; and Poland's, at 17.9 million tons, up 4.7 percent from a year ago.

xxx
Exhilaration is that feeling you get just after a great idea hits you, and before you realize what's wrong with it.
