9H129 RISE

from **Sire Tower**

RISE is an outstanding all-around production and type improver. His production information has increased impressively. He is now +1139 PD milk. RISE daughters have strong front ends and top-lines. Their udders are strong in center support with good teat size shape, and placement. We would recommend his use on cows needing improvement in hind legs and teats. RISE is destined for well-deserved popularity.
