# PROGRESSIVE FARMERS WANT PROFESSIONAL CONSULTATION

1. Is pH a false indicator of calcium levels in your soils?
2. Is sulphur holding back the yield, protein content and adjustability of your crops?
3. Is excessive magnesium what makes your land so wet and late?

If your present soil tests don't answer these questions, you will profit by our technical help. SOIL TESTS ARE DIFFERENT! Our complete soil analysis will help you balance soil fertility, which means more efficient cropping and feeding - less bought feed and fertilizer - more yield and profit.

## WE SELL NO PRODUCTS — ONLY RECOMMENDATIONS

There is a reason why progressive farmers with sharp pencils hire us year after year for soil analyses and recommendations. We save them dollars. Balance makes crops to be proud of. Winter is the time to talk it over with:
