best by every test...

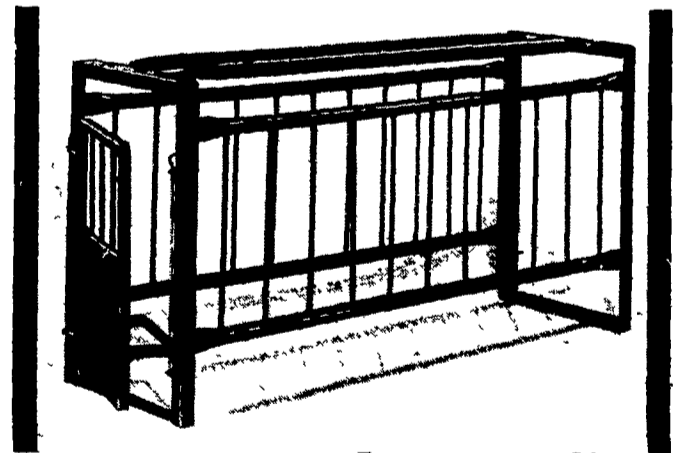

**CUSTOM BARNYARD FENCING,** Feed-through Fencing, Cattle Gates and Latches meet the test for the Maple Grove Dairies, Nazareth, Pa. "Gates are strong and fasten easily; they will stay where you want them."

**MARTIN FREE STALLS** provide features that increase the advantages of Free Stall Housing for Rainbow Farms, Walnutport, Pa. "Our stalls are exactly the right length and cows cannot bend them."

**MARTIN'S NEW CALF STALLS** make it impossible for one calf to spread disease to any other calves. A sanitary environment is so easy and convenient—with removable floors and one-piece steel sidewalls.

**NEW FARROWING EQUIPMENT** that features high-strength, basic construction will take all of the punishment a sow can give a crate. True flexibility allows options to fit almost every set-up and budget.

# Beat the weather

## Get the most feed value out of your hay with Beacon Hay Pre-Serv\*

You get more milk per ton of hay when you treat your hay with Beacon Hay Pre-Serv. Hay Pre-Serv lets you cut hay as much as 26 hours earlier, at moisture levels up to 25%.

This means a larger hay crop, with less leaf loss and shattering, and less risk of weather damage. Hay Pre-Serv is easily applied to baled, chopped or stacked hay and prevents mold, spoilage, oxidation and excessive heating.

You get better color, improved palatability and more digestible nutrients in every ton of hay you cut.

If you grow succulent forage crops, make the most of them with Beacon Silage Pre-Serv.\* With Silage Pre-Serv you can harvest at moisture levels from 40 to 70%, and get as much as 30% more feeding value per ton of roughage.
