## How to make more milk from the same amount of feed

*The "balanced bite" is one key  
The Schwartz Mixer Wagon is the other*

Cows vary greatly in their individual preferences for one forage over another. So while some of your cows may be getting the diet they need to maintain peak production, others may be short-changing themselves ... getting plenty of protein perhaps, but not enough energy to balance it. What can you do about it?

**The Agway Total Mixed Ration**  
TMR is the best way yet devised for feeding a ration that's perfectly balanced for nutrient content. It eliminates cows' preferences.

But TMR feeding can be no better than the equipment used to mix the ration. Accurate measuring and thorough mixing are musts.

**Most versatile way to feed TMR ...the Schwartz Mixer Wagon**

It accurately proportions, thoroughly mixes, then transports and distributes nutrients in any prescribed amount and formulation. So it's easy to feed the right ration any place on your farm.

Triple augers tumble and turn feed end to end to perfectly blend liquid, granular or pelleted supplements into silage, chopped hay or ground grain. Five to seven minutes does the job. Controls are convenient—and positive. Solid construction assures trouble-free operation. Three sizes to choose from.

An Agway salesman will be happy to discuss TMR with you. He can also arrange a demonstration of the Schwartz Mixer Wagon. Call Agway today.
