Exhilaration is that feeling you get just after a great idea hits you, and before you realize what's wrong with it.

Experience is what you get when you were expecting something else.

AGRI-KING
KEY TO PROFIT

SAVE WHAT YOU GROW

Use . . .

"Silo-King"

WHY DOES SILO-KING WORK?

Silo-King contains a POTENT COMBINATION of the SAME ANTI-OXIDANTS used to PRESERVE HUNDREDS OF FOOD ITEMS in our super markets. Silo-King also contains a POTENT COMBINATION of FOOD GRADE ENZYMES and FLAVORS.

This COMBINATION OF ANTI-OXIDANTS AND ENZYMES results in a much GREATER PRESERVATIVE EFFECT. They ABSORB THE ATMOSPHERIC and HYDROLYTIC OXYGEN ENERGY in the silage to PREVENT THE INITIAL OXIDATION which causes the HEATING AND THE LOSSES.

They also UTILIZE MOISTURE available in the silage to help SYNTHESIZE MORE SOLUBLE

SUGARS which help produce a HIGH QUALITY, SWEET SMELLING silage with EXCEPTIONAL PALATABILITY.

By REDUCING THE LEVEL OF OXIDATION, temperature of the silage is maintained in a RANGE OF 100 TO 110 DEGREES.

This is the IDEAL TEMPERATURE FOR FERMENTATION. This results in a HIGHER PH (LOWER ACIDITY) and a SILAGE OF VERY HIGH QUALITY.

Powerful knife drive, but so smooth and quiet!

International Balanced Head Mowers

Glide through crops at speeds up to 8 mph. And do it with superior cutting action that's due to the IH wrist-action balanced head drive. With only 3 moving parts, the drive delivers fast, short, powerful knife strokes to take down heavy tough crops in a hurry. As a bonus, this simple design extends service life, reduces mower and knife maintenance. Get the style you prefer. Trailing, semi-mounted or fully mounted.

- 7-ft cutterbars standard, extra-high capacity 9-ft bar optional, automatic breakaway protects against obstruction damage
- Cutterbars operate well above or below ground level for clean mowing in rough rolling terrain
- Extra-strong cutterbar design keeps knife in line—patented triplet end section stops plugging at outer shoe

Let's arrange a demonstration. Finance plans available.
